

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Kneeland Elementary School District

CDS Code: 1262919 6008015

School Year: 2022-23

LEA contact information:

Greta Turney

Superintendent

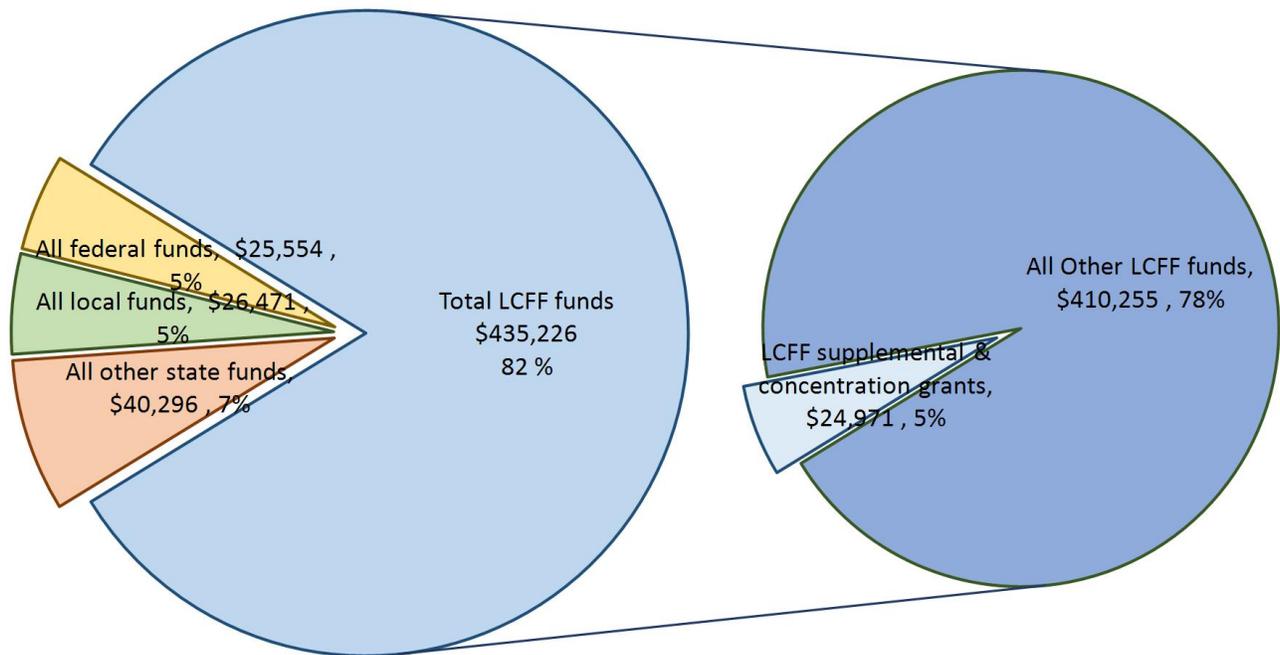

kneeland@kneelandsd.org

(707) 442-5472

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2022-23 School Year

Projected Revenue by Fund Source

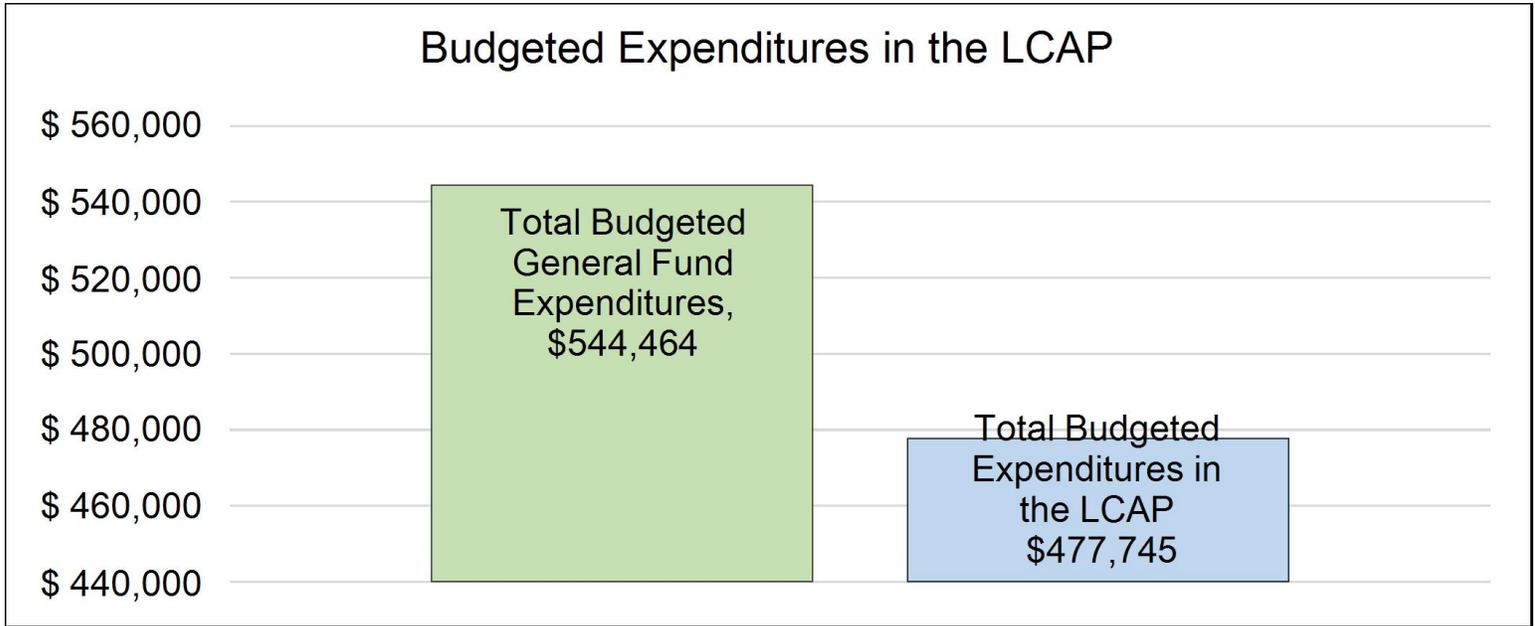

This chart shows the total general purpose revenue Kneeland Elementary School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Kneeland Elementary School District is \$527,547, of which \$435,226 is Local Control Funding Formula (LCFF), \$40,296 is other state

funds, \$26471 is local funds, and \$25554 is federal funds. Of the \$435226 in LCFF Funds, \$24971 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Kneeland Elementary School District plans to spend for 2022-23. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Kneeland Elementary School District plans to spend \$544,464 for the 2022-23 school year. Of that amount, \$477,745 is tied to actions/services in the LCAP and \$66,719 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

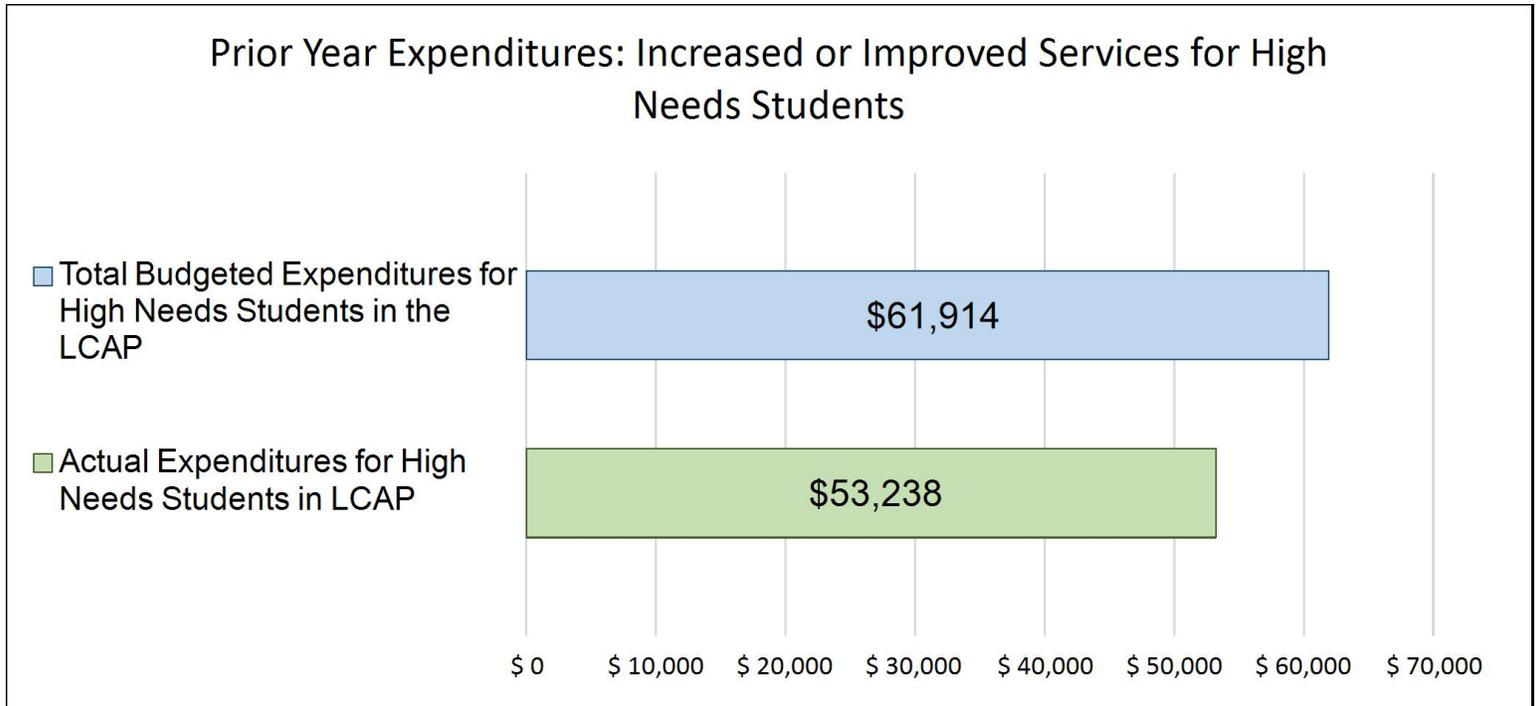

Expenses that did not get captured in the LCAP are related to normal business costs in running a school. Those costs include utilities, legal counsel retainers, annual auditor fees, administrative office supplies. Additionally, we contract our Business services with Northern Humboldt Union High School District. All of these costs do not directly impact students so they were not identified in the LCAP.

Increased or Improved Services for High Needs Students in the LCAP for the 2022-23 School Year

In 2022-23, Kneeland Elementary School District is projecting it will receive \$24,971 based on the enrollment of foster youth, English learner, and low-income students. Kneeland Elementary School District must describe how it intends to increase or improve services for high needs students in the LCAP. Kneeland Elementary School District plans to spend \$95,941 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2021-22

This chart compares what Kneeland Elementary School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Kneeland Elementary School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2021-22, Kneeland Elementary School District's LCAP budgeted \$61914 for planned actions to increase or improve services for high needs students. Kneeland Elementary School District actually spent \$53238 for actions to increase or improve services for high needs students in 2021-22.

The difference between the budgeted and actual expenditures of \$-8,676 had the following impact on Kneeland Elementary School District's ability to increase or improve services for high needs students:

The total expenditures for actions and services to increase or improve services for high needs students in 2021-22 is less than the total budgeted expenditures due to a shift in instructional aide salary to special education aide salary.

Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Kneeland Elementary School District	Greta Turney Superintendent	kneeland@kneelandsd.org 707-442-5472

California’s 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. The following is a one-time mid-year report to the local governing board or body and educational partners related to engagement on, and implementation of, these Acts.

A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).

The LEA held a back-to-school night in September 2021 during which families and community members were invited to provide feedback and points of interest for addressing school climate, student and family needs, and areas for targeted focus to address learning loss. Parent surveys were distributed mid-year to assess successes of implemented supports, and to identify further needs to shift focus onto. Student surveys were distributed mid-year to evaluate progress of targeted curriculum and social and emotional learning areas, and to identify areas of further need or developing need. Site Council meetings were utilized to review policies as they pertain to student development and school safety procedures and plans. The public has been invited through email and written notification to monthly board meetings at which program development has been openly discussed and budgetary considerations assessed and reviewed.

The school board, site council, and educational partners have been informed of the following projected funds the LEA anticipates receiving:

- ELO-P- \$50,000 <~ LEA is currently developing a comprehensive, 9-hour per day program utilizing parent surveys, and public input at board meetings
- Universal Prekindergarten (UPK) \$25,000 <~ LEA is currently developing a UTK program utilizing the funding to support staff training and education using parent feedback as guidance in identifying student and community participation and need.
- Educator Effectiveness-\$11,620 <~ Funds utilized to purchase upgraded curriculum for TK-3rd grade in English Language Arts, and upgraded curriculum in Science and ELA for grades 4-8, and professional development and training for staff based on input from the Site Council meetings and public input at monthly board meetings.
- Dispute Prevention & Resolution (DPR)- SPED \$502 <~ These funds will be used based on staff input, student needs, and areas of greatest need.
- Learning Recovery Support (LRS)-SPED \$2,821 <~ The LEA is using these funds based on student needs, staff input, and parent input to facilitate one-to-one supports using a trained instructional aide.

A description of how the LEA used, or plans to use, the additional concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.

The LEA currently has no English learners, no foster youth, and an enrollment of 35% low-income students. The LEA received no additional concentration grant add-on funding.

A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.

The LEA used community events in September 2021, in October 2021, and in December 2021 to garner feedback from community members, parents, and students to identify areas of greatest need. Monthly board meetings to which LEA families and community members were invited, reviewed potential uses of the funds. One-time federal funds received to support recovery from the COVID-19 pandemic were utilized to purchase additional computers to establish a 1:1 student to device ratio, upgraded ELA curriculum in the primary grades' classroom and upgraded science/ELA curriculum in the 4-8 grades' classroom, and to hire an additional certificated teacher to provide smaller class size and more focused instructional support for targeted students and students with learning loss.

GEER \$1,380 & CRF \$7,238 were included in the LCAP.

ELO, which was state but transferred to federal (\$7,876) were used to fund instructional aides to provide one-to-one support and small group support for targeted students including students with disabilities, low income students, and foster/homeless youth. These methods of learning recovery were determined through parent surveys, assessments, and community feedback at board meetings and community events held by the LEA.

A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.

The LEA did not receive ESSER III Funding; the LEA has no Title 1 funding.

A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA’s 2021–22 LCAP and Annual Update.

The LEA is following the predetermined reopening plan to provide additional supports for students identified with learning loss due to the COVID pandemic. Special attention and focus has been given to low income students and students with disabilities. The LEA has no ELs or foster/homeless youth. The LEA used fiscal resources to pay for instructional aide time to increase instructional supports for targeted students, purchased additional technological devices to provide each student their own device, and each classroom purchased upgraded curriculum in ELA and Science.

Instructions for the Supplement to the Annual Update for the 2021–22 Local Control and Accountability Plan Year

For additional questions or technical assistance related to the completion of the Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan (LCAP), please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction

California’s 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. Section 124(e) of Assembly Bill 130 requires LEAs to present an update on the Annual Update to the 2021–22 LCAP and Budget Overview for Parents on or before February 28, 2022, at a regularly scheduled meeting of the governing board or body of the LEA. At this meeting, the LEA must include all of the following:

- The Supplement to the Annual Update for the 2021–22 LCAP (2021–22 Supplement);
- All available mid-year outcome data related to metrics identified in the 2021–22 LCAP; and
- Mid-year expenditure and implementation data on all actions identified in the 2021–22 LCAP.

When reporting available mid-year outcome, expenditure, and implementation data, LEAs have flexibility to provide this information as best suits the local context, provided that it is succinct and contains a level of detail that is meaningful and accessible for the LEA’s educational partners.

The 2021–22 Supplement is considered part of the 2022–23 LCAP for the purposes of adoption, review, and approval, and must be included with the LCAP as follows:

- The 2022–23 Budget Overview for Parents
- The 2021–22 Supplement
- The 2022–23 LCAP
- The Action Tables for the 2022–23 LCAP
- The Instructions for the LCAP Template

As such, the 2021–22 Supplement will be submitted for review and approval as part of the LEA’s 2022–23 LCAP.

Instructions

Respond to the following prompts, as required. In responding to these prompts, LEAs must, to the greatest extent practicable, provide succinct responses that contain a level of detail that will be meaningful and accessible for the LEA’s educational partners and the broader public and must, to the greatest extent practicable, use language that is understandable and accessible to parents.

In responding to these prompts, the LEA has flexibility to reference information provided in other planning documents. An LEA that chooses to reference information provided in other planning documents must identify the plan(s) being referenced, where the plan(s) are located (such as a link to a web page), and where in the plan the information being referenced may be found.

Prompt 1: *“A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).”*

In general, LEAs have flexibility in deciding what funds are included in the LCAP and to what extent those funds are included. If the LEA received funding through the Budget Act of 2021 that it would have typically included within its LCAP, identify the funds provided in the Budget Act of 2021 that were not included in the LCAP and provide a description of how the LEA has engaged its educational partners on the use of funds. If an LEA included the applicable funds in its adopted 2021–22 LCAP, provide this explanation.

Prompt 2: *“A description of how LEA used, or plans to use, the concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.”*

If LEA does not receive a concentration grant or the concentration grant add-on, provide this explanation.

Describe how the LEA is using, or plans to use, the concentration grant add-on funds received consistent with California *Education Code*

Section 42238.02, as amended, to increase the number of certificated staff, classified staff, or both, including custodial staff, who provide direct services to students on school campuses with greater than 55 percent unduplicated pupil enrollment, as compared to schools with an enrollment of unduplicated students that is equal to or less than 55 percent.

In the event that the additional concentration grant add-on is not sufficient to increase the number of staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, describe how the LEA is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Prompt 3: *“A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.”*

If the LEA did not receive one-time federal funding to support recovery from the COVID-19 pandemic and the impacts of distance learning on students, provide this explanation.

Describe how and when the LEA engaged its educational partners on the use of one-time federal funds it received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on students. See the COVID-19 Relief Funding Summary Sheet web page (<https://www.cde.ca.gov/fg/cr/relieffunds.asp>) for a listing of COVID-19 relief funding and the Federal Stimulus Funding web page (<https://www.cde.ca.gov/fg/cr/>) for additional information on these funds. The LEA is not required to describe engagement that has taken place related to state funds.

Prompt 4: *“A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.”*

If an LEA does not receive ESSER III funding, provide this explanation.

Describe the LEA’s implementation of its efforts to maintain the health and safety of students, educators, and other staff and ensure the continuity of services, as required by the federal American Rescue Plan Act of 2021, and its implementation of the federal Elementary and Secondary School Emergency Relief (ESSER) expenditure plan to date, including successes and challenges.

Prompt 5: *“A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA’s 2021–22 LCAP and Annual Update.”*

Summarize how the LEA is using its fiscal resources received for the 2021–22 school year to implement the requirements of applicable plans in a manner that is aligned with the LEA’s 2021–22 LCAP. For purposes of responding to this prompt, “applicable plans” include the Safe Return to In-Person Instruction and Continuity of Services Plan and the ESSER III Expenditure Plan.

California Department of Education
November 2021

Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Kneeland Elementary School District	Greta Turney Superintendent	kneeland@kneelandsd.org (707) 442-5472

Plan Summary [2022-23]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Kneeland is a Necessary Small School with an enrollment of 35 students, transitional-kindergarten through eighth grade. The three-room school is located in the mountains between Eureka and Arcata which is about a 40 minute drive from either city. The school is at an elevation of 2950 feet and is surrounded by pastures, grassland, and forest. Kneeland School has an outstanding staff consisting of two classroom teachers, and a Resource Specialist and Speech Therapist. In addition, there are three part time Instructional Aides, an administrative assistant, one Bus Driver and a Custodian. Mission: As a focal point of the community, the Kneeland School District is committed to offering each child a quality education founded on values exemplified in rural schools: a close bond among staff, student, parents, and community, and an individualized program meeting the varying needs of all students.

Metrics which do not apply to Kneeland School:

- State Priority #4
- Share of students who are college and career ready
- English learner reclassification rate
- Share of students who pass AP exams with 3 or higher
- Share of students determined to be prepared for college with the EAP

- State Priority #5
- High school graduation rates
- High School drop out rates

Kneeland has no English Learners, Foster Youth or Homeless students enrolled. Metrics related to these groups are, therefore, not applicable.

The California School Dashboard does not report results for any state indicator due to the small size of the student population and the necessity for confidentiality.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

Kneeland School District serves a small student population. The California School Dashboard is largely not applicable due to LEA size and the necessity for privacy adherence. Results on DataQuest indicate student performance in English/Language Arts and Math are as follows: ELA at 42% and Math at 16%. As these results are based on small numbers meaningful insights for long term planning are limited, as one student's performance is weighted so heavily when calculating percentages. For this reason Kneeland monitors individual student growth from year to year as a more reliable measure of success. The prior year, math scores were 9%, showing that performance has increased in math by 6%.

Based on local data, the LEA has successfully navigated through a pandemic to offer safe, full-time, in-person instruction to all students enrolled in the district. The district has had 0 COVID cases on campus or reported by families. The district has successfully maintained health department guidelines for opening up schools to in-person, on campus instruction.

The LEA has more than doubled its enrollment through the implementation of a rigorous academic program in the primary grades' classroom while maintaining the high standards for the upper grade classroom that were established in prior years. The LEA has also identified students with increased needs and has provided solid resource programs including an increase in one-to-one and small group instruction with instructional aides and resource specialists.

The LEA has acquired a larger sized bus in order to provide all students an equal opportunity to access in-person instruction.

The LEA has upgraded the campus to provide students and the community with a re-structured ball wall frequently used by community groups including the California Fire Department and the Kneeland Fire Protection District for a physical fitness regimen.

The LEA has also improved the fencing along the periphery of campus to increase security for all students, and has installed a new security system to ensure the safety of the school's campus.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

The current social studies curriculum in the middle grades classroom has been identified locally to have some weakness and will be modified and upgraded to include a more broad and thorough curriculum program to provide all learners access to a rigorous social studies program. Performance in mathematics in all grade spans is low and professional development opportunities will be explored to encourage a more engaging math instruction.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The small size of Kneeland's student population served as a benefit during the pandemic. At a time when many schools had to close and move to distance learning, due to the small cohort size Kneeland was able to modify instructional space and serve students in person. This provided less disruption of learning. As the pandemic begins to dissipate, Kneeland recognizes the importance of the school as a community hub and will focus largely on recreating strong community connections.

Students living in isolated, rural communities, where internet services are limited, benefit greatly from an educational program which provides frequent real-life learning opportunities, such as fieldtrips, and community partnerships.

The 2021-24 LCAP prioritizes community involvement with the intention of increasing community events as soon as is safe and meets the state and local department guidelines.

Kneeland will continue to offer in-person instruction to students in a multi-graded learning environment based on a broad spectrum of study designed to lead to the future success of all students.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

NA

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

NA

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

NA

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

NOTE - There are no bargaining units for certificated or classified staff. As there are no ELs, there is no ELAC.

Surveys are distributed to educational partners in the Spring annually. Feedback opportunities and open discussions for the LEA are provided at Open House in the Spring, and at the beginning of each school year at Back to School Night. Feedback and results are discussed at site council and school board meetings - open to the public, and at LCAP overview meetings prior to adoption at board meetings -- open to the public.

Meetings incorporating staff, teachers, and parents occur through SSC meetings, CPTO meetings, and staff meetings. Additionally, staff, teachers and administration consults with SELPA to ensure all educational partners have opportunities to provide input.

A summary of the feedback provided by specific educational partners.

Data collected from surveys and in-person indicated parents supported the educational program and services provided by Kneeland School: 91.7% agreed or strongly agreed their children's classroom experiences were preparing them for the next level of education (8.3% reported that they had no children enrolled at the LEA and, therefore, could not agree or disagree.)

91.7% agreed or strongly agreed a nurturing learning environment, and efforts to foster attendance were in place (8.3% indicated that they had no children enrolled with the LEA and, therefore, did not agree nor disagree.)

92% agreed or strongly agreed there were appropriate avenues for parent concerns and 84% believe staff were inclusive and they felt welcome, 75% felt morale was high

Response rates:

95% from families, 100% participation rates from students, and 100% participation from staff.

Specifically educational partner input noted and valued:

Small class sizes and good teachers

A fun, inclusive, family atmosphere

Communication, kindness, understanding, flexibility, and care of the children community

Excellent communication.

Strong relationships with students and families

Science. Small class sizes, and all-school activities

Personalized education and community care

The staff.

Science fair. Inclusive environment.

Ideas for possible additional offerings:

Outreach programs (beach clean up, coat drive or food drive, community improvement based field trips.)

Music and choir, a hot lunch program

After school program and more free/paid lunch options

More accessibility to public funding

The continuation of a third teacher

Parent luncheon

Music

Implementation of a third classroom to lessen the grade span in each class.

100% of teachers have consulted with SELPA to ensure student successes for all learners, targeting specifically students with special education needs.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

Educational Partner input has emphasized the desire to implement a third class to increase student successes in all areas of study, focusing on primary grades and targeted learners with specific needs. The inclusion of a third classroom would decrease the number of grades in each class from 5 grade levels to 3 grade levels in each class which would promote a more focused, rigorous educational program appropriate for the skill levels in each instructional cohort.

Goal 1, Actions 1, 3, 7, and 8 directly relate to educational partner input through employing trained certificated staff to promote rigorous educational programs, the employment of trained instructional aides to provide one-to-one and small group supports, the acquisition of state standard materials, and the implementation of monthly field trips to accent real-life learning opportunities for all students.

Goals and Actions

Goal

Goal #	Description
1	All students and specifically those with unique needs, will receive a high quality instructional program in all subjects, based on state standards, designed to prepare them for success in high school and the world beyond.

An explanation of why the LEA has developed this goal.
 Based on previous assessments, academic supports need to be fortified to promote successful outcomes showing growth for all learners.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
1 CAASPP performance in ELA	45.45% of students tested in 2018-19 scored at or above level 3 in English Language Arts	42.11% tested met or exceeded standard in ELA.			50% of students tested will score at or above level 3 in ELA state standardized testing.
2 CAASPP performance in Math	9.09% of students tested scored at or above level 3 in Mathematics.	15.79% tested met or exceeded standards in Math.			40% of students tested will score at or above level 3 in Math on state standardized testing.
3 District Assessments for English Language Arts	Between Fall and Spring, 100% of students tested showed growth on district approved, grade level assessments in English Language Arts	Through district assessments, 100% of students showed growth and progress on .			100% will score higher on district approved local assessments than the year prior.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
4 District Assessments for mathematics	Between Fall and Spring, 100% of students tested showed growth on district approved, grade level assessments in mathematics.	Through district assessments, 100% of students showed growth and progress.			100% will score higher on district approved local assessments than the year prior.
5 Class schedules and report cards documenting a broad course of study	100% of students, including low income and SWD, are enrolled in a broad course of study which includes all required subjects, PE, visual arts, dramatic arts, and outdoor education.	100% of students, including low income and SWD, are enrolled in a broad course of study which includes all required subjects, PE, visual arts, dramatic arts, and outdoor education.			Maintain 100%
6 Individualized Education Plans (IEP)	100% of students with disabilities participated in standards-aligned programs as indicated in their IEPs	100% of students with disabilities participated in standards-aligned programs as indicated in their IEPs			Maintain 100%
7 Board Resolution, SARC, IM inventory and purchase records	100% of students, including SWD, have access to standards-aligned instructional materials	100% of students, including SWD, have access to standards-aligned instructional materials			100%
8 Personnel records and SARC	100% of teachers are properly credentialed and assigned	100% of teachers are properly credentialed and assigned			Maintain 100%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
9 State PE testing	84% of students fall in the Healthy Fitness Zone f or State PE Testing	Due to COVID regulations, PE testing was not required and, therefore, no results are available.			95% of students tested will fall within the Healthy Fitness Zone for PE testing.
10 Participation records for other events demonstrating student successes	100% of students in grades 4--8 participated in the District Science Fair	100% of students in grades 4--8 participated in the District Science Fair			Maintain 100%
State science assessment results as reported in CA Dashboard	Establish baseline of % at or above standard in 2021-22	100% of students tested through state testing were high level 2. 100% of students participated in the school science fair, 50% went to the county science fair, 10% went to the state science fair and to a national level science fair.			Achieve performance equivalent to Green status on Dashboard
LCAP actions provide listing of services for unduplicated students (high needs) and for SWD	Programs are in place for all high needs students and SWD	Programs are in place for all high needs students and SWD			All Programs will remain in place for all high needs students and SWD
Implementation of CSS shown in curriculum materials, teacher lesson plans, classroom observations	All classrooms, including those with SWD, have fully implemented CSS in all subjects.	All classrooms, including those with SWD, have fully implemented CSS in all subjects.			Maintain fully implemented

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teachers	Employ and properly assign qualified teachers with appropriate credentials	\$156,598.00	No
1.2	Special Ed	Employ Special Education Teacher for students with Special education needs. Employ Speech Teacher for students with Speech and Language needs	\$31,382.00	No
1.3	Instructional Aides	Employ Classified Instructional Aide(s) to provide additional assistance for student learning. Classified instructional aides will be used for additional one on one assistance for students with unique needs and small groups.	\$89,041.00	Yes
1.4	Technology	Provide all students with access to high speed internet and maintain a one-to-one ratio of devices in order to meet equity standards, targeting low-income students, students with special needs, foster and homeless youth, and students identified with learning loss. Maintain a level of technology equipment and support services appropriate for student learning, distance learning if needed and CAASP annual testing.	\$1,800.00	Yes
1.5	Library services	Maintain Library Contract with HCOE as a resource for teachers for instructional materials and support	\$200.00	No
1.6	Network services	Maintain Information Network Service Contract with HCOE to maintain a level of technology appropriate for the district	\$1,651.00	No

Action #	Title	Description	Total Funds	Contributing
1.7	Instructional Materials	Maintain CSS instruction by purchasing curriculum and textbook consumables for My Math, California Math and Language Arts, and other board approved instructional materials when needed	\$25,050.00	No
1.8	Fieldtrips	Provide fieldtrips to enrich education in core subjects.	\$3,600.00	Yes
1.9	Classroom Services	Provide materials/supplies to facilitate classroom learning and provide resources to students.	\$5,348.00	No

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Due to COVID limitations in the 2021-2022 school year, 80% of students enrolled for the 2020-2021 school year participated in the state standardized testing. Of those, 40% came to the LEA mid-year after distance learning for more than 6 months. The total number of students tested was 21. Therefore one student's lower scores greatly affect the percentage data for outcomes. Care should be taken when interpreting the state standards testing outcomes.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

COVID relief funds were used in the following manner:
 Additional certificated staff was hired mid-year to facilitate smaller class sizes. The additional teacher then resigned in April. The expenditures in foal one reflect the fluctuation in staffing.
 Additional instructional aides were hired, one resigning two months after their hire date. These instructional aides offered additional support for students with social-emotional challenges, students identified with learning loss, low income students, and students in special education programs. (Instructional aides were also funded through the ELOP funding to extend instructional days to 9 hours. All students, including students from low-income families, students with special education needs, and students identified as having learning loss were enrolled in the ELOP with access to additional instructional services.)

The Educational Effectiveness Grant was used to upgrade ELA curriculum for the primary grades, and science curriculum for the upper grades classes to provide rigorous learning opportunities for all learners. CPTO funded admission fees and field trip costs other than those affiliated with transportation. The extensive field trip (two weeks of traveling to Ferndale from Kneeland for drama) did not occur in the 2021-2022 school year due to COVID closures of local live theaters. Enrollment in special education programs decreased in the 2021-2022 school year due to one student exiting the program, and two students moving out of district. The expected enrollment in special education programs for 2022-2023 are predicted to increase again. The LEA enrollment increased by 10% between the 2020-2021 and the 2021-2022 school year. The increased enrollment required an increase in supplies, materials, and classroom services.

An explanation of how effective the specific actions were in making progress toward the goal.

The implementation of updated curriculum in the primary grades for ELA manifested higher scores on local ELA assessments. The primary grade students are not eligible for state standardized testing, and, therefore the district is utilizing local and district assessments to measure growth. 100% of students in the primary grades showed growth. The updated curriculum also provided students with IEPs and students identified as low income with modified lessons and an abundance of supplementary materials. The district has no EL students, and no foster/homeless youth. The addition of a third teacher increased successful outcomes on district approved assessments and curriculum based assessments for all learners.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

The addition of a third teacher to provide a more focused educational plan for all learners, specifically targeting students from low income families, students requiring special education, and students with learning loss due to COVID distance learning proved to have positive outcomes for all learners. The LEA will hire a third teacher for the 2022-2023 school year. The LEA will also hire additional instructional aide staffing to facilitate the ELOP additional instructional hours and intersession days, to maintain a 1:10 adult to student ratio as required in the UTK program.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	All students will have access to safe and well-maintained facilities and welcoming learning environments, supported by positive behavior intervention practices.

An explanation of why the LEA has developed this goal.

In prior years, LEA has received positive marks on the FIT and Safety inspections. LEA intends to continue successful practices which have led to those results. The LEA maintains a high level of participation from its community members and parents and is one of only two community entities. The LEA intends to remain an integral community focus through community and parent based events and endeavors to maintain high levels of parent and community attendance.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Facility Inspection Tool (FIT)	Inspection shows facilities in GOOD repair	Inspection shows facilities in GOOD repair			Maintain GOOD rating
Student suspension rates	Student suspension rates 0%	The LEA had 2 suspensions in the 2020-2021 school year.			Return to a 0% suspension rate
Middle School dropout rate	Middle school dropout rate of 0%	Middle school dropout rate of 0%			Maintain 0%
Student expulsion rate	Student expulsion rate of 0%	Student expulsion rate of 0%			Maintain 0%
District developed student survey	Student surveys have an	Student surveys have an average rating of			Maintain average of Good

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
	average rating of Good on school climate	Good on school climate			
Professional development records (registration, expenditures, meeting agendas) on topics identified as of need by staff	All district staff participated in professional development with a focus on positive behavior intervention	All district staff participated in professional development with a focus on positive behavior intervention			Maintain 100% participation in PD
Required records for IEPs and 504 meetings for Students with Disabilities	100% of parents participated in IEPs and 504 meetings for SWD	100% of parents participated in IEPs and 504 meetings for SWD			Maintain 100%
Summaries of parent, student and staff district-developed surveys on school safety and connectedness	82% of families felt school was safe, 83% felt connected to and welcome at school. 88% of students felt safe, 75% felt included (connected). 100% of staff felt safe and connected. (2020-21)	91.7% of families strongly agree that the school is safe. 8.3% of families are neutral about the safety of the school. 100% of staff and students feel safe at school. 100% of families and staff agree that morale is high at the school.			Maintain 85% or above from both safety and connectedness for all 3 groups
Sign-in sheets or minutes from School Site Council meetings and LCAP development	23% of parents participated in SSC and LCAP development meetings	25% of parents participated in at least one event or meeting at which school planning and decision			35% of families will participate in SSC or LCAP planning meetings.

meetings demonstrating participation in school decision making	(2020-21)	making was presented and discussed -- SSC or LCAP meetings.			

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Facilities safety and maintenance	Provide safe and well maintained facilities by employing Custodial staff and landscaping staff. Custodial staff will be responsible for maintaining school cleanliness at a level which meets county guidelines during COVID and supports a welcome learning environment. Landscaping staff will be responsible for maintaining outdoor areas at a level which supports safe and positive environment.	\$53,703.00	No
2.2	Professional Learning	Provide professional development with a focus on positive behavior intervention and/or other topics identified as needed by staff. Staff will participate in professional learning such as Responsive classroom, 2nd Step and or PBIS. BSTA support for beginning teachers	\$354.00	No
2.3	Nutritious food	The district will provide nutritious food to all low- income students	\$1,500.00	No
2.4	Administrative leadership	Employ administrator to oversee the physical upkeep of the district, manage the workflow of the staff, and see that best practices are used for educating students and creating a	\$36,317.00	No

Action #	Title	Description	Total Funds	Contributing
		positive working environment for students and staff. Administrator also serves as Foster Youth and Homeless liaison should any students with these needs enroll in the district in the future.		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

The LEA campus increased the perimeter safety due to a break-in. Inclement weather caused damage to trees on campus as well as gutter damage. Initial repairs were made during the 2021-2022 school year.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Educational Effectiveness Grant funds were used for professional development to strengthen the educational programs for all students including those identified as low income, those with learning loss, and students with special education needs. Educational Effectiveness Funds were also used to fund administrative credentialing to strengthen the educational leadership of the LEA. Facility maintenance costs increased substantially due to unexpected campus damage including snow damage to gutters, myriad broken tree branches and tree damage during a heavy windstorm, and damage to perimeter fencing during a break-in.

An explanation of how effective the specific actions were in making progress toward the goal.

Initial repairs to unexpected damage have maintained the safety of the campus for all students.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

While initial repairs to immediate safety hazards on campus due to property damage from weather did sustain the safe campus requirements for all staff and students, further proactive repairs are scheduled for the summer of 2022 to remove damaged and unhealthy trees while no students are on campus. Steel, fabricated gutters are scheduled to be installed during the summer 2022 to prevent snow load hazards in the future. Fence replacement to install a taller fence for student safety is also scheduled for the summer of 2022. The LEA prioritizes safety for all students and staff on campus and measures will be taken to ensure that the campus and educational setting are safe.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	Maintain or improve a high level of parent, student, and community involvement.

An explanation of why the LEA has developed this goal.

LEA has a high level of involvement by parents, stakeholders, and community members which promotes successful relationships and a strong sense of community. The LEA prides itself on being one of only two community hubs and intends to maintain its strong standing in the community.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
1 Parent Survey	3.36 Overall Satisfaction score (4pt scale)	3.6 overall satisfaction score (4 pt scale)			3.75 points(4 pt scale) overall satisfaction score
2 Student surveys on school climate and connectedness	100% of students participated in surveys conducted each trimester	100% of students participated in surveys conducted each trimester			Maintain 100%
3 ADA rate	95% attendance rate at the end of the 2018-2019 school year (annual).	95.87% attendance rate for 2020-2021 school year (annual).			Maintain 95% ADA or higher
4 Chronic absenteeism rate	The district currently has a chronic absentee rate of 0%	The chronic absentee rate for 2020-2021 was 17.1%.			Maintain rate below 5%
5 Parent attendance at parent- teacher conferences	100% of families participated in parent teacher conferences	100% of families participated in parent teacher conferences			Maintain 100%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
6 Records of parent volunteer activities in each classroom, including parents of students with disabilities	50% of parents, including parents of students with disabilities, participated in classroom activities	60% of parents, including parents of students with disabilities, participated in classroom activities.			Maintain 60% or higher volunteer rate by parents -- post pandemic
7 Booster Club activities	100% of families, including parents of students with disabilities, supported at least one CPTO sponsored event	100% of families, including parents of students with disabilities, supported at least one CPTO sponsored event			Maintain 100%
8 Partnering with local organizations	The school partnered with three local organizations	The school partnered with two local organizations (COVID prevented partnering with the local theater)			Return to and maintain partnerships with 3 organizations -- post pandemic

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Secretarial support	Maintain employment of District Secretary to assist in Outreach programs: These will include updating district website, sending home weekly information for parents, updating the school marquee, supporting community events through the volunteer fire department, 4-H, and the Astronomers of Humboldt	\$20,043.00	No
3.2	Transportation	The district will provide transportation for any interested students to Freshwater school for access	\$51,158.00	No

Action #	Title	Description	Total Funds	Contributing
		to after school care and to facilitate family/school interaction and support. An increase in the area served is anticipated mid year in 2021-22. Costs will potentially be increased when this begins.		

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Due to the small school size, the chronic absentee rate is skewed significantly with one student showing chronic absenteeism. Care should be taken when interpreting this data.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The LEA purchased a larger bus (used) at the completion of the 2020-2021 school year. The increased capacity of the larger bus has decreased the number of bus runs by 50%. Prior to the acquisition of the larger bus, a smaller bus was utilized to transport half of the students before returning to provide transportation for the second half of the students requiring transportation thereby requiring 4 bus runs per day. The larger bus can facilitate all students in one bus run, decreasing the transportation costs.

An explanation of how effective the specific actions were in making progress toward the goal.

The larger bus has provided transportation for 90% of students enrolled in the district.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

To increase transportation opportunities for all students and families, the LEA will be training a second bus driver to implement a second bus route for students from low-income families, in-district students in remote areas, students with special education needs, homeless/foster youth, and students identified with chronic absenteeism. Due to COVID 19, local theaters have been closed since 2020 which has prevented the school from partnering with Ferndale Repertory Theater for its drama immersion unit and community outreach. Discussions are already in progress to re-implement this program in the 2022-2023 school year.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2022-23]

Projected LCFF Supplemental and/or Concentration Grants	Projected Additional LCFF Concentration Grant (15 percent)
\$24,971	0

Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
6.61%	0.00%	\$0.00	6.61%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

- Goal 1:
- Action 3: Instructional Aides: Instructional Aide time has been increased as appropriate for the increase in LEA enrollment . The instructional aides are able to support students with specific needs with direct, one-to-one instruction or small group instruction , prioritizing the specific needs of foster/homeless youth, low-income students, and students identified as having learning loss. The LEA does not currently have any English Learners
 - Action 4: Technological devices have been purchased to maintain a 1:1 ratio for students to devices. High-Speed internet has been purchased and offered at the school through in-person instruction, but also in the parking lot and at a community learning hub in the LEA library for anyone in need of connectivity.
 - Action 8: Fieldtrips:The LEA has implemented monthly field trips and presentations to increase access to real-life learning experiences throughout the county. Considering unique learning pathways for students with specific needs, these field trip opportunities will provide

foster/homeless youth, low-income students, and students identified as having learning loss with learning opportunities above and beyond the classroom. The LEA does not currently have any English Learners

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

The leading challenge for the LEA's low income students is transportation. In order to increase the LEA's attendance rate while alleviating the burden of transportation from the families of targeted students, the LEA has acquired a larger bus to provide transportation to and from the school for all students, prioritizing those students with specific needs, foster/homeless youth, and low-income students. The larger bus was put into service for the 2021-2022 school year, which increased costs to the district for maintenance and quotidian operational requirements. The increase in transportation services will increase identified students' successes through more regular attendance.

To further address transportation issues for unduplicated students and students with special needs, the LEA will be training an additional bus driver to drive a second bus to facilitate transportation for targeted families who are low income, foster/homeless youth, and students with special needs. The additional transportation options will alleviate some of the chronic absenteeism for the district.

The continued purchase of technology to maintain a one-to-one ratio for students to technology will surmount the inequity for those students who do not have access to technology at home or individually. This specifically supports students who are low-income, and identified as having specific learning needs beyond what their family can provide. High speed internet will also be provided to in-person students, but also to students who lack connectivity at their residence. The LEA has established a learning hub for low income students, special education students, homeless/foster youth, and students identified with learning loss. The learning hub will also be provided to all students in the district.

The increase in instructional aide time facilitates direct, one-to-one, and small group support for students identified as having learning loss, low-income students and students with IEPs. The addition of these instructional supports will greatly improve student successes. Students with targeted needs, low income, foster youth, and special needs will be prioritized to ensure equity for all learners. One-to-one and small group supports have increased academic success and 100% of students including those identified with needs have achieved passing scores on curriculum based assessments. The additional aide time is also being utilized to provide students with before school and after school instructional opportunities which addresses community and family needs regarding child care before and after school.

Attendance for field trips has been between 95% to 100% of the student body. Increasing the field trip opportunities provides real life learning experiences while offering instructional opportunities that are highly engaging and promote participation and attendance for all students. Low income, foster youth, and students with specific needs are able to garner experiences and instruction not readily available in a strict classroom setting; field trips provide additional learning methods to students who struggle with book learning or direct instruction.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

N/A

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC Section 52064[e][1]*). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2022–23 . Leave blank until then.	Enter information in this box when completing the LCAP for 2023–24 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 . Leave blank until then.	Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
 - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
 - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
 - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
 - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
