School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2022-23 School Year

This chart shows the total general purpose revenue Northern United - Humboldt Charter School expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Northern United - Humboldt Charter School is $5,097,771, of which $3,472,345 is Local Control Funding Formula (LCFF), $402,010 is other
state funds, $450,823 is local funds, and $772,593 is federal funds. Of the $3,472,345 in LCFF Funds, $686,312 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).
LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Northern United - Humboldt Charter School plans to spend for 2022-23. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Northern United - Humboldt Charter School plans to spend $5,385,902 for the 2022-23 school year. Of that amount, $3,294,111 is tied to actions/services in the LCAP and $2,091,791 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

- liability insurance
- telephone services
- electricity services
- water services
- waste disposal
- audit fees
- legal fees
- fingerprinting fees
- authorizing fee
- equipment rental

Increased or Improved Services for High Needs Students in the LCAP for the 2022-23 School Year

In 2022-23, Northern United - Humboldt Charter School is projecting it will receive $686,312 based on the enrollment of foster youth, English learner, and low-income students. Northern United - Humboldt Charter School must describe how it intends to increase or improve services for high needs students in the LCAP. Northern United - Humboldt Charter School plans to spend $686,312 towards meeting this requirement, as described in the LCAP.
LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2021-22

This chart compares what Northern United - Humboldt Charter School budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Northern United - Humboldt Charter School estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2021-22, Northern United - Humboldt Charter School's LCAP budgeted $667,942 for planned actions to increase or improve services for high needs students. Northern United - Humboldt Charter School actually spent $847,062 for actions to increase or improve services for high needs students in 2021-22.
Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan

### Local Educational Agency (LEA) Name | Contact Name and Title | Email and Phone

California’s 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. The following is a one-time mid-year report to the local governing board or body and educational partners related to engagement on, and implementation of, these Acts.

A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).

Northern United - Humboldt Charter School has received or will recieve funds provided through the Budget Act of 2021. These funds include increased revenue on our Concentration grant, an A-G Completion Grant program, Educator Effectiveness Block Grant, and funds for TK expansion. As a nonclassroom-based charter school, we did not receive funding for the Expanded Learnign program. In order to engage our educational partners a survey was sent to parents, teachers, staff, and students on November 1, 2021. The survey asked for input on areas of perceived strength and needed improvement. It also asked for input on additions our community partners would like to see for our students and schools. There were 36 respondents and of these respondents, 44.4% were parents, 13.9% were teachers, 30.6% were staff, and 11.1% were students. As more funds are provided, we will release additional surveys specific to the funding received.

A description of how the LEA used, or plans to use, the additional concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.

Northern United - Humboldt Charter School received the additional concentration grant add-on funding. This money will be used to employ additional tutors and teachers who will provide direct services to students on school facilities. These staff members will provide services princially targeted toward students who are low-income, English learners and foster youth. However, we had an overall reduction in our Supplemental/Concentration funds due to declining enrollment resulting in an overall reduction in our LCFF apportionments.
Northern United - Humboldt Charter School sent a survey to parents, students and staff regarding the Expanded Learning Opportunities Grant. The Humboldt-Del Norte SELPA was also consulted. For the parent and student survey, we had 83 responses. Of the respondents, 94% were parents and 6% were students. For the staff survey, we had 23 respondents. Both surveys were sent out on 12/16/21. Additionally, input was gathered from school administration at the March and May 2021 admin meetings. Input from teachers was also received at the April and May 2021 independent study teacher meetings. The ELO plan was agendized, presented and adopted at the May 13, 2021 NUCS Board of Directors meeting. This survey specifically elicited feedback from these community members regarding strategies and activities to be implemented by Northern United. Also, meetings were held where feedback was collected regarding additional strategies the community would like to see our school implement. Because both of these surveys sought community consultation relevant to ESSER III, the resulting feedback was used to help develop this plan. However, a survey specific to ESSER III was also distributed to families, students, administrators, teachers, school leaders, other educators, and school staff. On October 10, 2021, a meeting to gather feedback from school administrators was also held. During multiple meetings of the Northern United Charter Schools' Board of Directors, prevention and mitigation strategies were discussed. These meetings held in public always included an opportunity for public comment. On November 14, 2021, the ESSER III plan was agendized, presented and adopted by the NUCS Board of Directors.

The ESSER III funds will be used to continue the intervention coordinator position into the 2022-23 school year.

With ESSER III funds, we will extend our funding of an additional counselor to provide social, emotional, and mental health support through one-on-one and group counseling through the 2022-23 and 2023-24 school years.

All members of the community expressed a need for additional in-person, direct instruction opportunities. In order to offer this, the school needs a facility to offer continuity, engagement, mental health and intervention supports in a private setting. A facility provides a location to practice evidence-based interventions and services, including to students who are traditionally underserved. Using ESSER funds for a facility allows for our school to engage in activities authorized by the Individuals with Disabilities Education Act because students who qualify for an IEP may receive services in-person. Additionally, having a facility is necessary to address the unique needs of low-income students, English learners, racial and ethnic minorities, homeless students, and foster youth. A facility aides in regular and substantive educational interaction between students and their classroom instructors and mental health service providers. Administering and using high-quality assessments, to accurately assess students’ academic progress and assist educators in meeting students; academic needs is most effective in-person. With these things in mind, our ESSER III plan originally included purchasing a facility. After further discussion with community partners and analysis...
of our financial standing, Northern United - Humboldt Charter School decided to not purchase the facility as originally planned. Instead, the ESSER III funds will be utilized to finance the leases of our facilities.

Northern United - Humboldt Charter School will be using fiscal resources received for the 2021-22 school year to employ an intervention coordinator, an additional school counselor, teachers, and instructional aides. The instructional staff will address learning loss that occurred during the COVID-19 pandemic through direct instruction, intervention strategies and expanded tutoring opportunities, as well as expanded summer programs. The social-emotional needs of the students will be addressed through the focus of the additional counselor. The intervention coordinator will support staff in determining necessary interventions and through frequent monitoring in order to modify strategies as needed. Funds will also be utilized to lease facilities to ensure the continuation of in-person instruction. All of these actions are in alignment with our 2021-22 LCAP.

Instructions for the Supplement to the Annual Update for the 2021–22 Local Control and Accountability Plan Year

For additional questions or technical assistance related to the completion of the Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan (LCAP), please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction

California’s 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. Section 124(e) of Assembly Bill 130 requires LEAs to present an update on the Annual Update to the 2021–22 LCAP and Budget Overview for Parents on or before February 28, 2022, at a regularly scheduled meeting of the governing board or body of the LEA. At this meeting, the LEA must include all of the following:

• The Supplement to the Annual Update for the 2021–22 LCAP (2021–22 Supplement);
• All available mid-year outcome data related to metrics identified in the 2021–22 LCAP; and
• Mid-year expenditure and implementation data on all actions identified in the 2021–22 LCAP.

When reporting available mid-year outcome, expenditure, and implementation data, LEAs have flexibility to provide this information as best suits the local context, provided that it is succinct and contains a level of detail that is meaningful and accessible for the LEA’s educational partners.

The 2021–22 Supplement is considered part of the 2022–23 LCAP for the purposes of adoption, review, and approval, and must be included with the LCAP as follows:
• The 2022–23 Budget Overview for Parents
• The 2021–22 Supplement
• The 2022–23 LCAP
• The Action Tables for the 2022–23 LCAP
• The Instructions for the LCAP Template

As such, the 2021–22 Supplement will be submitted for review and approval as part of the LEA’s 2022–23 LCAP.

Instructions

Respond to the following prompts, as required. In responding to these prompts, LEAs must, to the greatest extent practicable, provide succinct responses that contain a level of detail that will be meaningful and accessible for the LEA’s educational partners and the broader public and must, to the greatest extent practicable, use language that is understandable and accessible to parents.

In responding to these prompts, the LEA has flexibility to reference information provided in other planning documents. An LEA that chooses to reference information provided in other planning documents must identify the plan(s) being referenced, where the plan(s) are located (such as a link to a web page), and where in the plan the information being referenced may be found.

Prompt 1: “A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).”

In general, LEAs have flexibility in deciding what funds are included in the LCAP and to what extent those funds are included. If the LEA received funding through the Budget Act of 2021 that it would have typically included within its LCAP, identify the funds provided in the Budget Act of 2021 that were not included in the LCAP and provide a description of how the LEA has engaged its educational partners on the use of funds. If an LEA included the applicable funds in its adopted 2021–22 LCAP, provide this explanation.

Prompt 2: “A description of how LEA used, or plans to use, the concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.”

If LEA does not receive a concentration grant or the concentration grant add-on, provide this explanation.
Describe how the LEA is using, or plans to use, the concentration grant add-on funds received consistent with California Education Code Section 42238.02, as amended, to increase the number of certificated staff, classified staff, or both, including custodial staff, who provide direct services to students on school campuses with greater than 55 percent unduplicated pupil enrollment, as compared to schools with an enrollment of unduplicated students that is equal to or less than 55 percent.

In the event that the additional concentration grant add-on is not sufficient to increase the number of staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, describe how the LEA is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

**Prompt 3:** "A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils."

If the LEA did not receive one-time federal funding to support recovery from the COVID-19 pandemic and the impacts of distance learning on students, provide this explanation.

Describe how and when the LEA engaged its educational partners on the use of one-time federal funds it received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on students. See the COVID-19 Relief Funding Summary Sheet web page (https://www.cde.ca.gov/fg/cr/relieffunds.asp) for a listing of COVID-19 relief funding and the Federal Stimulus Funding web page (https://www.cde.ca.gov/fg/cr/) for additional information on these funds. The LEA is not required to describe engagement that has taken place related to state funds.

**Prompt 4:** "A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation."

If an LEA does not receive ESSER III funding, provide this explanation.

Describe the LEA’s implementation of its efforts to maintain the health and safety of students, educators, and other staff and ensure the continuity of services, as required by the federal American Rescue Plan Act of 2021, and its implementation of the federal Elementary and Secondary School Emergency Relief (ESSER) expenditure plan to date, including successes and challenges.

**Prompt 5:** "A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA’s 2021–22 LCAP and Annual Update."

Summarize how the LEA is using its fiscal resources received for the 2021–22 school year to implement the requirements of applicable plans in a manner that is aligned with the LEA’s 2021–22 LCAP. For purposes of responding to this prompt, “applicable plans” include the Safe Return to In-Person Instruction and Continuity of Services Plan and the ESSER III Expenditure Plan.
Plan Summary [2022-23]

General Information
A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Northern United - Humboldt Charter School petitioned Humboldt County Office Education to become the first countywide benefit charter in Humboldt County. Northern United - Humboldt Charter School's petition was approved on February 14, 2018. Northern United - Humboldt Charter School serves students in grades TK-12, with six facilities throughout Humboldt County. We are WASC accredited and are an AVID certified school. We offer our students a variety of instructional opportunities including concurrent and dual enrollment, CTE pathways, and TRIO.

Northern United – Humboldt Charter School students are educated through personalized learning programs. Within that context, students may receive their instruction through home-based learning or through attendance at a learning center. Students who select home-based learning meet with their teacher on a schedule that accommodates their educational needs. They may also participate in classes with other students at one of our facilities. Students who chose to attend one of our learning centers meet with their teachers on a more regular basis.

Because all of our students are independent study, parents play a vital role in their student's education. The program parents select determines the degree to which the parent is involved. The parents can become the primary facilitators of their child's learning program if they choose. Professional learning and parent education are available and encouraged. We work with all of our students and parents by providing them with educational resources, a credentialed teacher, and access to a team of educational staff. Parents/guardians and their children collaborate with their teachers to determine their educational goals and objectives, create their individualized curriculum, and determine their individual methods of teaching and learning.

Northern United - Humboldt Charter School provides a safe environment and positive culture for our students. We utilize PBIS, a behavioral framework, to help support our students achieve improved social and academic outcomes. We are an ALICE-certified school with staff who are trained in active shooter response. To help support the social/emotional needs of our students, we offer an Outdoor Resiliency Building Education program, as well as counselors and school psychologists.
Reflections: Successes
A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

After a review of the California School Dashboard, Dataquest and our local data, Northern United - Humboldt Charter School has had several important successes. We increased our CAASPP scores significantly. In ELA, all students who exceeded increased from 15% to 22%, and those who met increased from 27% to 37%. We saw the same success in Mathematics. In Mathematics all students who exceeded increased from 11% to 23% and those who met increased from 19% to 26%. Additionally, on the California School Dashboard College and Career Indicator, we saw an increase in the percentage of graduates who were classified as college and career prepared from 10.5% prepared to 45% as per College/Career Levels and Measures Report & Data - 2020. Northern United - Humboldt Charter School also experienced great success in our CTE completion rate. This rate increased from 0% to 18.75%.

In order to build on or maintain the successes experienced, we will continue to place emphasis on students taking interim assessments so teachers might target areas in their teaching where students show weakness. This will help us to continue to raise our students' CAASPP scores. Equally, we will continue to add A-G courses to the UCOP Portal. In order to increase our CTE completion rate, we will be exploring the addition of more CTE Pathways. We will also increase our counseling staff’s contact with students for the purpose of academic counseling and setting students up for college and career readiness.

We did see tremendous success in our families feeling as if they have input in decision making at Northern United - Humboldt Charter School. To continue encouraging our parents and guardians to participate in our school’s community, we will pursue our efforts to advertise and inform all of the events our school offers, LCAP meetings, parent workshops, etc. Through frequent email, monthly newsletters, our school website, and our teacher’s regular communication with families, we will maintain and offer clear information about all opportunities to our educational partners.

Reflections: Identified Need
A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Though we have seen significant success in our CAASPP scores, this will continue to be a priority for our school. Equally important, the small sample sizes of our distributed surveys caused them to be skewed in such a way that our students who are satisfied with their academic program fell dramatically from 94.7% to 50%. In order to have more involvement in our survey process, greater emphasis, follow-through, and a clearly defined purpose of the goal of the survey will be made available to our educational partners. Surveys will be sent out in a timely fashion, the goals will be delineated, what we hope to accomplish with the survey, and how the data we are collecting will be used will be
discussed in each survey. Periodic reminders to staff will continue but be more frequent and all surveys will be shared through ParentSquare, our schoolwide communication system. This will provide various platforms for our educational partners to access the surveys.

We also saw a dramatic difference in our graduation rate changing from 94.1% to 84.2%, with one high school dropout in 2019-20 and two dropouts in the 2020-21 school year. Our chronic absenteeism increased from 8.88% to 17.9%. Both of these areas will be a focus moving forward. Because we have returned to in-person instruction, our chronic absenteeism should decrease significantly. Nevertheless, through communication with parents by teachers, parents will understand how important student engagement is to their student's educational success. Equally important, we will have our school counselors attend our Missed Assignment meetings and work with teachers to help implement short and long-term goals to improve attendance. As for our graduation rate falling significantly, because we have returned to a more normal school schedule, we expect that our graduation rate will increase significantly. Not unlike many schools throughout the county, the pandemic seemed to play a role in both absenteeism and graduation rate. As we move forward, we will be tracking our graduation rate more closely and reaching out to students who are at risk. Our counselors will play a significant role in this process.

**LCAP Highlights**

A brief overview of the LCAP, including any key features that should be emphasized.

When creating our LCAP, we proceeded to change from three goals to two goals. We based our decision on the fact that we believed this change would make our LCAP more user-friendly and more concise in nature. Moreover, we felt that having a brief but comprehensive LCAP would make sharing our LCAP information with our educational partners easier to understand and promote greater communication, input, and involvement in the process in the upcoming years. We have found this decision to be successful; therefore, we will be continuing with our two goals.

Based on feedback that was received from our educational partners, we will continue placing emphasis on the academic and social/emotional needs of our students. With an increase in our counseling staff and expanded opportunities for our Outdoor Reliency Education program and, continued interventions from our Intervention Coordinator overseeing our SSTs that address both behavioral and academic issues, all students will be supported in a very direct manner at the first signs of student struggle.

We will be continuing some of our past actions placing emphasis on specific targeted areas. With our tutoring and intervention curriculum along with our Renaissance assessments and interim CAASPP assessments, teachers are able to provide students with targeted support in areas in which students struggle. Finding that our CAASPP scores improved significantly during the 2020/2021 school year, Northern United-Humboldt Charter School believes this action has proven successful and we will continue to address students' needs in this manner. By monitoring students' growth with our internal data, Renaissance STAR testing, teachers are able to support students immediately in both ELA and Mathematics. This action has proven successful as well. Seeing significant growth in the 2020/2021 school year, we will continue along this path of monitoring and intervention with all of our students.

Additionally, by continuing to offer our students various CTE pathways, we witnessed an increased growth in our CCI indicators. This has proven to be successful and will be continuing with our CTE pathways with hopes of expanding our offerings over the next year.
Other important highlights of our LCAP surround continuing to offer A-G coursework that is both high-interest and provides rigor for our students. While this is a continued action, we will place targeted emphasis on the addition of more A-G classes with the intention of seeing all high school students taking these courses. Again, witnessing success in the number of students taking A-G coursework during the 2020/2022 school year allows us to know that we are on the correct path and want to continue to expand our offerings.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

**Schools Identified**
A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

**Support for Identified Schools**
A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

**Monitoring and Evaluating Effectiveness**
A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A
Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

Northern United - Humboldt Charter School understands that community input is important because parents, students, and staff can use the LCAP process to advocate for funds to meet their specific school needs, such as additional counselors, programs, and tutors. Due to the manner in which Covid impacted in-person learning, we focused on the use of surveys. To gather feedback, we distributed four different surveys. The surveys focused on school climate, family engagement, California state standards curriculum, and implementation, and an LCAP survey. The surveys were distributed to parents, students, and staff. The School Climate Survey was distributed on January 20, 2022. The Family Engagement Survey was distributed on January 10, 2022. The Implementation of State Standards Survey was distributed on December 10, 2021. The LCAP survey was distributed on November 1, 2021. In total, we received feedback from 130 educational partners.

Input was also solicited through three LCAP meetings held at our learning centers. These meetings occurred on November 1, 2021, December 9, 2021, and January 26, 2022. Because of the months of Covid lockdowns and school just beginning to return to normal, LCAP meetings have not been as well attended as in the past. With only 7 education partners attending these meetings, participation was less than hoped for. This was in part why we distributed an LCAP survey so we might receive more input from our partners. Additionally, partners had the opportunity to give feedback at staff meetings and Northern United Charter Schools' Board meetings. The topic was on the board agenda on August 19, 2021, September 9, 2021, December 9, 2021, and February 10, 2022. Feedback and comments were encouraged. While our surveys and in-person interactions were less than normal due to Covid-19 and returning to normal, we were able to elicit a great deal of helpful feedback from each of our educational partner groups.

Northern United - Humboldt Charter School does not have an ELAC group due to the low number of EL students. Also, NU-HCS does not have a bargaining unit.

A summary of the feedback provided by specific educational partners.

Based on the information we received, our educational partners responded that they feel well informed regarding their student's educational needs, as well as, welcome to participate in the decision-making process of our school. Another area that educational partners addressed was how well our school individualizes learning and provides flexibility for each student and their specific needs. Our small class sizes, teacher-to-student ratio, community building, and positive, safe learning environments were all mentioned as strengths. In analyzing the feedback from our educational partner groups, it is clearly evident that our learning community feels connected to our school, supported, and believes that our program offers every possibility for success for our student body, therefore these are all areas we will include and build upon in the next three years.

Our educational partners also responded about those areas in which they saw a need for our school to improve or continue to add to moving forward. There was a theme in our educational partner's responses regarding the social-emotional needs of our students and parents and
how more services should be available. Moreover, there seemed to be a consensus among the educational partners that more elective choices should be made available to our student body.

Specific Feedback from Staff:
* Individualize and personalize education, get to know students and families, reflect on our practices and make changes when needed.
* Individualized learning, community building, student/parent to teacher relationships, whole-child learning
* Our school does professional development very well. PBIS, AVID, and ALICE training have really changed the culture and standards in our school for the better overall.
* I think we listen to what students and parents are looking for and needing and try to provide it. I also think we pay close attention to what the state requirements are so that our students are well prepared to have the most options. Finding *the best way to merge these two goals for each individual is the key.
* I also think we have good teamwork between staff, as well as families with teachers and learning centers, to achieve the best for the students.
* I think we are great at recognizing what students need, meeting them where they are at.
* More 1:1 or small group work to address the learning gaps brought on by Covid

Specific Feedback from Parents:
* I feel as if the staff of the school works to build a trusting and respectful relationship with families.
* Northern United - Humboldt Charter School provides my family with information and resources to support student learning and development in the home.
* Appreciation of all the choices, like Independent Study
* Great communication between staff and home
* My child's school has created a welcoming environment for all families in the community.
* Small class sizes are a plus
* More elective courses taught

Specific Feedback from Students:
* I love our teachers
* The teachers always take time to repeat things and give a little extra help.
* The school is very helpful when it comes to getting students caught up with assignments.
* Having more electives, specifically foreign languages
A description of the aspects of the LCAP that were influenced by specific input from educational partners.

As a result of our educational partner's feedback, we included maintaining our communication strategies within the actions of our LCAP. Our communication strategies are widespread encouraging education partners' engagement in every facet of our school. Specifically, by adding a monthly parent group to our school, we have had the opportunity to support parents, guardians, and other educational partners in new and exciting ways. Equally important, because of the feedback we have received, Northern United-Humboldt Charter School has added more elective courses. While these courses are CTE in nature, they provide our students with new opportunities to involve themselves in courses of high interest. Moreover, by offering our students a Spanish teacher, we were able to provide our educational partners with answers to some of the feedback that they provided to us.

As a result of the feedback regarding the social/emotional needs of our students, we have increased our counseling staff to address the social/emotional aspects of students in need. We also expanded our Outdoor Resiliency Building Education program. High school students participated in this program with their specific cohorts and we found that this was a great addition to our program.
Goals and Actions

Goal

<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Northern United - Humboldt Charter School will improve student performance outcomes in all academic areas.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

Upon reflection of our current and historical student performance data on the California School Dashboard, our local data, and feedback from educational partners, we determined that we need to focus on the academic progress of our students. Additionally, due to the COVID-19 pandemic and related facility closures, some of our students may have experienced gaps in their learning. Focusing on student performance must be a central focus for our school.

The actions and metrics chosen will help us achieve this goal by placing emphasis on academic rigor, state standards, a broad course study, and college readiness.

**Goal Analysis [2021-22]**
An analysis of how this goal was carried out in the previous year.
A description of any substantive differences in planned actions and actual implementation of these actions.

Northern United - Humboldt Charter School continued to place great emphasis on raising our CAASPP scores. Through using interim CAASPP assessments, designed to support teaching and learning throughout the year; and Tools for Teachers, designed to support classroom-based formative assessments our students were introduced to the CAASPP prior to the formal assessment. In raising student and teacher awareness of the CAASPP regularly throughout the year, we saw a significant increase in our CAASPP scores for all student groups. By using the interim assessments, teachers were able to gain information about student strengths and areas for improvement. This emphasis proved to be successful and helped our teachers modify and create lessons that helped students gain support in areas of weakness. With significant increases in our CAASPP scores across the board with all student groups, this method of preparation proved to be very successful. Another focus area that proved quite successful was in the area of our College and Career Indicators. Placing emphasis on CTE Pathways and A-G coursework, Northern United - Humboldt Charter School showed a significant increase in "other student outcomes." We raised the percentage of graduates classified as college and career prepared as part of the CCI from 10.5% to 45% by placing a concerted effort in creating new CTE Pathways and providing more A-G coursework.
An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Material differences between Budgeted Expenditures and Estimated Actual Expenditures due to limited or lack of implementation of some actions are noted as follows:
1.2 Employ highly qualified content area specialists: Less money was spent in this area due to the retirement of one of our content specialists.
1.3 Purchase common core state standard aligned curriculum for all students, including unduplicated students and students with disabilities: Less money was spent in this area because we did not need to purchase as much curriculum as originally thought.
1.4 Provide professional learning opportunities: Less money was spent in this area because many of our professional development opportunities were via zoom and did not require travel, hotels, etc...
1.5 Implement academic RTI: Less money was spent in this area because of an overestimation of RTI implementation as stated in our estimated budget as compared to our actuals.
1.6 Employ an academic counselor: More money was spent in this area due to hiring another academic counselor.
1.8 Provide materials and supplies: Less money was spent in this area due to an overestimation of what materials and supplies would be needed.
1.9 Provide educational technology: Less money was spent in this area due to having a large supply of educational technology that was already available to our student body.
1.10 Purchase educational contracted services: Less money was spent in this area because we purchased fewer contracted services than previously anticipated.
1.11 Contract vendors: Less money was spent in this area because we did not have to contract out with vendors as much as anticipated. We took care of this in-house this year.

An explanation of how effective the specific actions were in making progress toward the goal.

The specific actions taken by Northern United - Humboldt Charter School to target our specific goals proved very successful. Providing teachers with the tools needed through the interim assessments, teachers were able to target instruction to help students grow in areas of weakness. This was very successful when it came time to take the CAASPP formal assessments. By doubling our CTE Pathway choices, providing and encouraging all students to be on an A-G Pathway, we saw significant increases in our CCI. The specific, targeted actions taken at Northern - United Humboldt Charter School proved to be very effective in making great progress toward our goals.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Northern United - Humboldt Charter School does not plan to change our goals or actions. Instead, we want to continue to place emphasis on the above stated areas and add to what we are already doing. With students completing CTE Pathways moving from 0% to 18.75%, we do plan on continuing to explore options available to add more CTE Pathways to our program. Northern United-Humboldt Charter School believes by offering high quality, interesting and rigorous CTE courses, we will continue to see significant growth in this area. We will
continue to add more A-G courses, dual enrollment and concurrent enrollment courses to our program to increase our College and Career Indicators over the next year.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.
Goals and Actions

Goal

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>2</td>
<td>Northern United - Humboldt Charter School will improve school climate and parent/community involvement to promote and cultivate a positive, safe environment for all.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

Because of the pandemic and the impact that it has had on all students and staff, we are aware that we will need to support our educational partners. Promoting school climate and student/parent engagement can only occur when the mental health needs of our community are met. This is a very important goal for our school to concentrate on given the unprecedented times we have lived through. Based on the California School Dashboard and our local data from metrics related to school climate and engagement, responses indicated that additional support and interventions are needed.

The actions and metrics chosen will help us achieve this goal by placing emphasis on community engagement, school connectedness, parent communication, and school satisfaction.

Goal Analysis [2021-22]
An analysis of how this goal was carried out in the previous year.
A description of any substantive differences in planned actions and actual implementation of these actions.

This goal was implemented in much the same way that we have done over the past years. Through parent, student, and staff surveys, we were able to gain much of our information. In an analysis of this goal, we did accomplish our planned actions and implementation; however, it is clear that more emphasis needs to be placed on the importance of involvement in our surveys. Due to small sample sizes, it's clear that our measuring and reporting results show a decline in areas of importance. Specifically, when looking at student satisfaction with their academic program, we see a decline that is clearly related to a very sharp decline in the sample size. While Northern United - Humboldt Charter School plans to continue to gain information through our survey process, a greater emphasis needs to be placed on communicating the importance of involving everyone in the process. Equally important, follow-through and more frequent communication and reminders need to be sent regarding the importance of these surveys and how they impact our results.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Material differences between Budgeted Expenditures and Estimated Actual Expenditures are noted as follows:
2.1 Increase parent communication: Less money was spent on this than projected. Though our parent communication did take place, less money on mailers was spent.
2.3 Provide professional learning opportunities in social/emotional, climate and engagement strategies: Less money was spent in this area due to providing professional development in-house and not bringing in outside agencies.
2.6 Offer food program: More money was spent on this area due to the fact that we offered food to all students free of charge. This will continue to be an area in which our budgeted expenditures will most likely increase.
An explanation of how effective the specific actions were in making progress toward the goal.

While clearly, Northern United - Humboldt Charter School did make progress or maintain its goal of increasing parent communication, it’s evident that we need to continue to make a concerted effort to provide more frequent and targeted communication towards involving them in our process of gaining important information concerning our school and programs. We did see a significant increase in parents feeling a part of the decision-making process (19.7% to 85.7%), however, sample size did play a part in this substantial growth. Northern United - Humboldt Charter School will continue to move in this direction, but the greater emphasis, communication, and follow-through will be instituted in order to alleviate biases created by small sample sizes and skewed results in our surveying process. While we did see an increase in our chronic absenteeism (8.88%-17.9%), a decrease in our graduation rate (94.1%-84.2%), and an increase in our drop rate(5.82%-10.5%), much of this can be explained to our small sample size and 1 student dropping out. Moreover, while COVID played a large part a couple of years ago in our metrics, we are seeing that returning to normalcy for our students has been a challenge. It is due to this that we will continue to use our second counselor to reach out with social/emotional support to our student body and help them return to a normal school schedule which should decrease our chronic absenteeism and dropout rate, while increasing our graduation rate.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

In reflection of our practice, it is clear that communication and providing our parents, students, and staff with the reasons behind the surveys and their importance is needed. In moving forward, Northern United - Humboldt Charter School plans to provide a more in-depth communication surrounding everyone’s involvement in the survey process. Equally important, our surveys will be added to our school-wide communication system, ParentSquare, so parents will have a variety of ways to access the surveys sent forth.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

**Required Descriptions**

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

Goal #1

**Action 2 - Employ highly qualified content area specialists**

By providing additional resources in specific content areas to unduplicated youth, the students will have more direct instruction and support toward making progress in academic content standards.

(1) A review of our previous CAASPP data, as well as our local assessment data, showed that our unduplicated students were underperforming in academic areas.

(2) By providing highly qualified teachers, unduplicated students will receive the academic support through direct instruction necessary to achieve academic expectations.
(3) Based on our increased CAASPP scores this action seems to be effective in meeting the goals for these students.

Action 5 - Implement academic RTI
By employing an Intervention Coordinator, additional tutors, administering the Renaissance assessment, and providing an intervention curriculum, we will be able to provide targeted intervention for specific gaps in learning or learning loss for unduplicated students. The intervention coordinator will be responsible for progress monitoring for students who fall within the unduplicated categories.

(1) The needs of our unduplicated students were considered first by an analysis of our data that showed these students were underperforming in academic areas.

(2) By providing a common core state standard aligned curriculum, unduplicated students will have access to the appropriate curriculum in order to achieve academic expectations.

(3) Based on our increased CAASPP scores this action seems to be effective in meeting the goals for these students.

Action 6 - Employ an academic counselor
By employing an additional academic counselor, unduplicated students will receive more academic, college/career, and transition plan guidance. The focus will be placed on post-secondary transitional planning in order to ensure the success of unduplicated students after high school.

(1) Because our unduplicated students are not meeting their expected academic progress, we considered how increasing our academic counseling staff could enhance a student’s access to a broad course of study and increase the rate of unduplicated students’ success.

(2) By providing additional academic counseling, all students will benefit, but the strategies will be principally directed to unduplicated students.

(3) Based on our increased CAASPP scores this action seems to be effective in meeting the goals for these students.

Action 7 - Employ instructional aides
By employing additional instructional aides there will be a lower adult/student ratio which provides more direct instruction and support for unduplicated students.

(1) After an analysis of data reflecting student success, we determined that unduplicated students were disproportionately scoring lower on both standardized testing and our internal STAR Renaissance assessments. This prompted the creation of an action to address additional academic support for students.

(2) We expect our student success metrics will increase for all students, however, unduplicated students will receive the largest benefit by having instructional aides.

(3) Based on our increased CAASPP scores this action seems to be effective in meeting the goals for these students.

Action 8 - Provide materials and supplies
By providing materials and supplies, including backpacks, gas mileage reimbursements, and bus tickets for all students, including unduplicated youth, we will remove barriers from learning that might otherwise stand in the way of their academic success.

(1) Unduplicated students, low-income students in particular, often lack the supplies they need to be successful.

(2) By providing materials and supplies, all of our students receive the educational materials they need to be successful, but our unduplicated students principally benefit.

(3) Based on our increased CAASPP scores this action seems to be effective in meeting the goals for these students.

Action 9 - Provide educational technology
By providing educational technology to unduplicated youth, we will ensure that unduplicated youth receive access to educational opportunities.

(1) Unduplicated students often face barriers regarding internet access and educational technology. This leads to less academic engagement.
(2) By providing hot spots and Chromebooks to students, all of our students receive access to the internet, but our unduplicated students principally benefit because the barrier of access is removed.

(3) Based on our increased CAASPP scores this action seems to be effective in meeting the goals for these students.

**Action 12 - Provide CTE pathways**

By providing additional CTE pathways to all students, unduplicated youth will receive instructional programs to ensure college and career readiness.

(1) Because our unduplicated students, especially socioeconomically disadvantaged students, are less likely to be "prepared" for College/Career Readiness than all students, providing engaging, hands-on opportunities to experience a-g courses and CTE pathways, will ensure that unduplicated students will gain the necessary skills to be prepared to enter college or the workforce.

(2) Additional CTE pathways will allow more students to benefit, however, our unduplicated students will receive the greatest benefit from greater student engagement; therefore, those meeting the "prepared" level for the College/Career Readiness indicator should increase.

(3) Based on our increased number of graduates classified as college and career prepared, this action seems to be effective in meeting the goals of these students.

**Goal #2**

**Action 2 - Employ a social/emotional counselor**

By employing an additional counselor who will be addressing the social/emotional needs of students, unduplicated youth will receive additional support in addressing their mental health.

(1) Because our unduplicated students are overrepresented in many of our school metrics, including dropout rate, suspension rate, and chronic absenteeism, employing an additional school counselor will benefit and add to the unduplicated students' success.

(2) Increased counseling services will increase student engagement for all students, but will principally benefit the unduplicated students.
(3) At this time we are unable to determine if this action was effective because the social and emotional well-being of students was greatly impacted by COVID-19. We will be better able to assess the effectiveness of this action when analyzing data next year.

Action 3 - Provide professional learning opportunities in social/emotional, climate and engagement strategies.
By providing additional learning opportunities in PBIS, Second Step, etc. staff will gain additional knowledge to help support unduplicated student’s behavioral and emotional needs.

(1) Because our unduplicated students are overrepresented in our dropout rate, suspension rate, and chronic absenteeism, providing professional learning in social/emotional, climate and engagement strategies, our staff will gain knowledge to address the specific barriers that unduplicated students face in their academic success.

(2) Professional learning in SEL provides staff with increased strategies to support student engagement for all students, therefore the overrepresentation of unduplicated students in our dropout and suspension rate should decrease.

(3) At this time we are unable to determine if this action was effective because the social and emotional well-being of students was greatly impacted by COVID-19. We will be better able to assess the effectiveness of this action when analyzing data next year.

Action 4 - Implement behavioral RTI
By employing an Intervention Coordinator to target the behavioral and social/emotional needs of unduplicated students, they will gain targeted additional support in this area. By expanding our ORBE program, additional unduplicated students will participate in resiliency building education

(1) Implementing behavioral RTI is essential to academic progress, in particular for our unduplicated students. Homeless, foster youth and low-income students may need additional interventions to help eliminate barriers to success.

(2) By implementing behavioral RTI, all students, especially homeless, foster and low-income students will benefit, however, these actions are principally directed toward unduplicated youth.
(3) At this time we are unable to determine if this action was effective because the social and emotional well-being of students was greatly impacted by COVID-19. We will be better able to assess the effectiveness of this action when analyzing data next year.

Action 6 - Offer food program
By offering a food program, we will remove barriers from learning that might otherwise stand in the way of their academic success.

(1) Unduplicated students, especially those with low income, have food insecurity as a barrier to learning. Because of this, these students were considered first.

(2) All students benefit from a food program, however, unduplicated students will receive the greatest benefit by removing this barrier that might otherwise stand in the way of their academic success.

(3) Based on our increased CAASPP scores this action seems to be effective in removing a barrier for academic success and therefore helping to meet the goals for these students.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

The actions and services in Northern United - Humboldt Charter School’s LCAP are targets toward supporting students with the greatest need and/or the lowest performance. An examination of students who are failing to meet expected outcomes revealed that students who are English learners, foster youth, homeless, and/or low income are continually overrepresented. The remaining students who are struggling do not fall into one of the targeted groups of students but are enrolled throughout Humboldt County.

Each student who is not meeting expected outcomes has a need for tiered services, more skilled teachers, and access to a strong Common Core-based instructional program. By distributing focused actions and services through schoolwide or targeted services as appropriate, we intend to increase the rate of student success and reduce those in any demographic group who require services through special education services in order to be successful.

This year’s LCAP includes actions and services intended to support both academic and social-emotional growth and success for students. Programs or services targeted to specific groups are included, as well as other actions or services that support our ability to meet the needs of struggling students regardless of where they are served. These actions/services are principally directed to the unduplicated students and are effective in meeting the needs of the unduplicated count.
In order to meet the needs of our unduplicated student population we are increasing and improving services directed toward placing greater emphasis on the social/emotional needs of our students. We will continue to have an increase in our counseling staff and we'll expand our Outdoor Resiliency Building Education program. The Intervention Coordinator position will oversee SST interventions that address both behavior and academics, supporting students in a very direct manner at the first signs of student struggle.

Other important features of our LCAP surround continuing some of our past actions with a more targeted emphasis. Our tutoring and intervention curriculum is a continued action but we will be increasing our tutoring staff and purchasing additional intervention curriculum because we have found that when used with our Renaissance assessments, we are able to provide immediate, targeted support to our students. Additionally, the Intervention Coordinator will be overseeing the academic interventions, including providing professional learning and support to our tutors. We will be holding intervention classes in order to be more intentional and targeted for students needing additional support, principally targeted toward unduplicated students. We will also continue providing CTE programs to all students, specifically targeting our unduplicated students to ensure college/career readiness.

Services provided for unduplicated pupils are increased or improved in the following actions:

Goal #1
Action 2 - Employ highly qualified content area specialists
By providing additional resources in specific content areas to unduplicated youth, the students will have more direct instruction and support toward making progress in academic content standards.

Action 5 - Implement academic RTI
By employing an Intervention Coordinator, additional tutors, administering the Renaissance assessment, and providing an intervention curriculum, we will be able to provide targeted intervention for specific gaps in learning or learning loss for unduplicated students. The intervention coordinator will be responsible for progress monitoring for students who fall within the unduplicated categories.

Action 6 - Employ an academic counselor
By employing an additional academic counselor, unduplicated students will receive more academic, college/career, and transition plan guidance. Focus will be placed on post-secondary transitional planning in order to ensure the success of unduplicated students after high school.

Action 7 - Employ instructional aides
By employing additional instructional aides there will be a lower adult/student ratio which provides more direct instruction and support for unduplicated students.

Action 8 - Provide materials and supplies
By providing materials and supplies, including backpacks, gas mileage reimbursements, and bus tickets for unduplicated youth, we will remove barriers from learning that might otherwise stand in the way of their academic success.
Action 9 - Provide educational technology
By providing internet, laptops, and hot spots to unduplicated youth, we will ensure that unduplicated youth receive access to educational opportunities.

Action 12 - Provide CTE Programs
By providing CTE programs to students, unduplicated youth will receive instructional programs to ensure career readiness.

Goal #2
Action 2 - Employ a social/emotional counselor
By employing an additional counselor who will be addressing the social/emotional needs of students, unduplicated youth will receive additional support in addressing their mental health.

Action 3 - Provide professional learning opportunities in social/emotional, climate and engagement strategies.
By providing additional learning opportunities in PBIS, Second Step, etc. staff will gain additional knowledge to help support unduplicated student’s behavioral and emotional needs.

Action 4 - Implement behavioral RTI
By employing an Intervention Coordinator to target the behavioral and social/emotional needs of unduplicated students, they will gain targeted additional support in this area. By expanding our ORBE program, additional unduplicated students will participate in resiliency building education.

Action 6 - Offer food program
By offering a food program, we will remove barriers from learning that might otherwise stand in the way of their academic success.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

The additional concentration grant add-on funding was used to increase our counseling staff. Based on feedback from our educational partners, it was clear that we needed extra counseling staff to address both the social and emotional needs of students, including unduplicated youth. Equally important, with one counselor paying close attention to this identified need, our other counselor is able to use their energies in the academic realm. We see that having two counselors is a great addition and allows more support for all students, including foster youth, English learners, and low-income students.

Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning**: The process of developing and annually updating the LCAP supports comprehensive strategic planning (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners**: The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA’s programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance**: The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
  
  - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

**Plan Summary**

**Purpose**
A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA’s community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

**General Information** – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA’s LCAP.

**Reflections: Successes** – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

**Reflections: Identified Need** – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

**LCAP Highlights** – Identify and briefly summarize the key features of this year’s LCAP.

**Comprehensive Support and Improvement** – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified**: Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools**: Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness**: Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

**Engaging Educational Partners**

2022-23 Local Control Accountability Plan for Northern United - Humboldt Charter School
Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: https://www.cde.ca.gov/re/lc/.

Requirements and Instructions

Below is an excerpt from the 2018–19 Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:
For county offices of education and school districts only, verify the LEA:

a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.

b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.
c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.

d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.

e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
• Inclusion of action(s) as contributing to increased or improved services for unduplicated services
• Determination of effectiveness of the specific actions to achieve the goal
• Determination of material differences in expenditures
• Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
• Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose
Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions
LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

• Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.

• Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.

• Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.
Focus Goal(s)
**Goal Description:** The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal
**Goal Description:** Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal
**Goal Description:** Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

**Explanation of why the LEA has developed this goal:** Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals
In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

**Consistently low-performing student group(s) criteria:** An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at [https://www.cde.ca.gov/fg/aa/lc/](https://www.cde.ca.gov/fg/aa/lc/).

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated Assistance.
Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description**: Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA’s eligibility for Differentiated Assistance.

- **Explanation of why the LEA has developed this goal**: Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

**Low-performing school(s) criteria**: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the “All Students” student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at [https://www.cde.ca.gov/fg/aa/lc/](https://www.cde.ca.gov/fg/aa/lc/).

- **Low-performing school(s) goal requirement**: A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.

- **Goal Description**: Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.

- **Explanation of why the LEA has developed this goal**: Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

**Measuring and Reporting Results**: For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.
Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric**: Indicate how progress is being measured using a metric.
- **Baseline**: Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome**: When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome**: When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome**: When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24**: When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “Measuring and Reporting Results” part of the Goal.

</table>

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

**Actions:** Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. *(Note: for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in California Code of Regulations, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).*

**Actions for English Learners:** School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in EC Section 306, provided to students and professional development activities specific to English learners.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

**Goal Analysis:**

Enter the LCAP Year.
Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

**Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

**Purpose**

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

**Requirements and Instructions**

*Projected LCFF Supplemental and/or Concentration Grants:* Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.
**Projected Additional LCFF Concentration Grant (15 percent):** Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

**Projected Percentage to Increase or Improve Services for the Coming School Year:** Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

**LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

**LCFF Carryover — Dollar:** Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

**Total Percentage to Increase or Improve Services for the Coming School Year:** Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

**Required Descriptions:**

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

**Principally Directed and Effective:** An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.
Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

**COEs and Charter Schools**: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

**For School Districts Only:**

**Actions Provided on an LEA-Wide Basis**:

**Unduplicated Percentage > 55 percent**: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

**Unduplicated Percentage < 55 percent**: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions are the most effective use of the funds to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

**Actions Provided on a Schoolwide Basis**:
School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

**For schools with 40 percent or more enrollment of unduplicated pupils:** Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

**For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils:** Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

**A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.**

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

**A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.**

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:
An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

**Action Tables**

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
• Table 2: Contributing Actions Table (for the coming LCAP Year)
• Table 3: Annual Update Table (for the current LCAP Year)
• Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
• Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table
The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

• **LCAP Year**: Identify the applicable LCAP Year.

• **1. Projected LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

• **2. Projected LCFF Supplemental and/or Concentration Grants**: Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.

• **3. Projected Percentage to Increase or Improve Services for the Coming School Year**: This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.

• **LCFF Carryover — Percentage**: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

• **Total Percentage to Increase or Improve Services for the Coming School Year**: This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —
Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action’s number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?:** Type “Yes” if the action is included as contributing to meeting the increased or improved services; OR, type “No” if the action is not included as contributing to meeting the increased or improved services.

If “Yes” is entered into the Contributing column, then complete the following columns:

  - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

  - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

  - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”

- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
• **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

  o **Note**: For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

• **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

• **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.

• **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.

• **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.

• **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

  o As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

  For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

### Contributing Actions Table
As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

**Annual Update Table**

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

**Contributing Actions Annual Update Table**

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
  
  o Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

**LCFF Carryover Table**

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).
• **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

**Calculations in the Action Tables**

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

**Contributing Actions Table**

- 4. Total Planned Contributing Expenditures (LCFF Funds)
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column

- 5. Total Planned Percentage of Improved Services
  - This percentage is the total of the Planned Percentage of Improved Services column

- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
  - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

**Contributing Actions Annual Update Table**

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
  - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- 4. Total Planned Contributing Expenditures (LCFF Funds)
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)
• 7. Total Estimated Actual Expenditures for Contributing Actions
  o This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)

• Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
  o This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)

• 5. Total Planned Percentage of Improved Services (%)  
  o This amount is the total of the Planned Percentage of Improved Services column

• 8. Total Estimated Actual Percentage of Improved Services (%)  
  o This amount is the total of the Estimated Actual Percentage of Improved Services column

• Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)  
  o This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

**LCFF Carryover Table**

• 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)  
  o This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.

• 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)  
  o This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).

• 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)  
  o If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
13. LCFF Carryover — Percentage (12 divided by 9)

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
