

CHRONIC ABSENCE AND TRUANCY

The Governing Board believes that excessive student absenteeism and tardiness, whether caused by excused or unexcused absences, may be an early warning sign of poor academic achievement and may put students at risk of dropping out of school. The Board desires to ensure that all students attend school in accordance with the state's compulsory education law and take full advantage of educational opportunities provided by the Humboldt County Office of Education.

The Superintendent or designee shall establish a system to accurately track and monitor student attendance, including methods to identify students classified as chronic absentees and truants, as defined in law and administrative regulation.

To encourage school attendance, the Superintendent or designee shall develop strategies that focus on prevention and early intervention of attendance problems. Preventive strategies may include efforts to provide a safe and positive school environment, relevant and engaging learning experiences, and school activities that help develop students' feelings of connectedness with the schools.

The Superintendent or designee shall work with students and parents/guardians to identify factors contributing to chronic absence and truancy. Based on this needs assessment, he/she shall collaborate with community agencies, including, but not limited to, child welfare services, law enforcement, courts, and/or public health care agencies, to ensure that alternative educational programs and nutrition, health care, and other support services are available for students and families and to intervene as necessary when students have serious attendance problems.

As required by law, habitually truant students shall be referred to a school attendance review board (SARB), a truancy mediation program operated by the county's district attorney or probation officer, and/or a juvenile court.

Students who are identified as truants shall be subject to the interventions specified in law and administrative regulation.

A student's truancy, tardiness, or other absence from school shall not be the sole basis for his/her out-of-school suspension or expulsion. Alternative disciplinary strategies and positive reinforcement for attendance shall be used whenever possible.

The Superintendent or designee shall regularly analyze data on student absence to identify patterns of absence and areas of concern. Such data shall be used to identify common barriers to attendance, prioritize resources for intervention, and monitor progress over time. The Superintendent or designee

shall periodically report this information to the Board for purposes of evaluating the effectiveness of strategies implemented to reduce chronic absence and truancy and making changes as needed. As appropriate, the Superintendent or designee also shall provide this information to key school staff and community agency partners to engage them in program evaluation and improvement.
