

Education for Foster Youth

It is the policy of the Board of Education that foster youth be placed in the least restrictive educational programs and have access to the academic resources, services and extracurricular and enrichment activities that are available to all pupils.

The Board recognizes that foster youth may face significant barriers to achieving academic success due to their family circumstances, disruption to their educational program and their emotional, social and other health needs. To enable such students to achieve state and Office of Education academic standards, the Superintendent or designee shall provide them with full access to the educational program and implement strategies identified as necessary for the improvement of the academic achievement of foster youth in the Office of Education's local control and accountability plan (LCAP).

The Humboldt County Office of Education shall make available to agencies that place children in family foster homes and licensed children's institutions in the county information on educational options for such children for use by the placing agencies in assisting parents and foster children to choose educational placements.

The Superintendent or designee shall collaborate with local agencies and officials including, but not limited to, the county placing agency, school districts, social services, probation officers, juvenile court officers, and other appropriate agencies to ensure maximum utilization of available funds and to meet the educational needs of foster youth. The Superintendent or designee shall explore the feasibility of entering into agreements with these groups to coordinate services and protect the rights of foster youth.

Students in foster care shall have access to educational opportunities and other services necessary to help such students meet the academic achievement standards to which all pupils are held. In all instances, educational and placement decisions for foster youth shall be based on the students' best interests as defined in law.

The Superintendent or designee shall ensure that placement decisions for foster youth are based on the student's best interests as defined in law and administrative regulation. To that end, he/she shall designate a staff person as the liaison for foster youth. The liaison for foster youth shall facilitate the proper educational placement, enrollment in school, and checkout from school of foster youth students and assist them when

transferring from one school to another in ensuring proper transfer of credits, records and grades.

The role of the liaison shall be advisory with respect to placement decisions and determination of the school of origin.

The Superintendent or designee and liaison for foster youth shall ensure that all appropriate staff, including, but not limited to, each principal, school registrar, and attendance clerk, receive training on the enrollment, placement, and transfer of foster youth and other related rights.

The Board desires to provide foster youth with a safe, positive learning environment that is free from discrimination and harassment and that promotes students' self-esteem and academic achievement. The Superintendent or designee shall develop strategies to build a foster youth's feeling of connectedness with his/her school, including, but not limited to, strategies that promote positive discipline and conflict resolution, the development of resiliency and interpersonal skills and the involvement of foster parents, group home administrators and/or other caretakers in school programs and activities.

This policy does not supersede laws or policies that govern pupil expulsion or educational placement in a juvenile court school of a pupil detained in juvenile hall or committed to a juvenile ranch, camp forestry camp, or regional facility.
