

American Rescue Plan Act Elementary and Secondary School Relief Fund (ESSER III) Safe Return to In-Person Instruction Local Educational Agency Plan Template

Background on ESSER

The American Rescue Plan Act (ARP) signed into law on March 11, 2021, provided nearly \$122 billion for the Elementary and Secondary School Relief Fund (ESSER). ARP ESSER, also known as ESSER III, funds are provided to State educational agencies in the same proportion as each State received under Title I-A of the Elementary and Secondary Education Act (ESEA) in fiscal year (FY) 2020. The U.S. Department of Education (ED) published Interim Final Requirements (IFR) on April 22, 2021 requiring Local Educational Agencies (LEAs) receiving ESSER III funds to submit an LEA Plan for the Safe Return to In-Person Instruction and Continuity of Services. If an LEA had already developed a plan for safe return to in-person instruction and continuity of services prior to the enactment of ARP that meets the statutory requirements of section 2001(i) but did not address all of the requirements in the IFR, the LEA must revise and post its plan no later than six months after receiving its ESSER III funds. This applies even if an LEA has been operating full-time in-person instruction but does not apply to fully virtual schools and LEAs.

The IFR and ARP statute, along with other helpful resources, are located here:

Purpose of the Template

The IFR issued by ED outlines several requirements for all LEAs that receive ESSER III funds, including that LEAs have in place a plan for ensuring safety during in-person instruction (either in-progress or planned) as well as ensuring continuity of services should the LEA or one or more of its schools be required to close temporarily for COVID-19-related public health reasons in the future. LEAs who had a plan in place by March 11, 2021, which incorporated opportunity for public comment and was posted publicly have six months from the date their ESSER III Assurances were completed to update and revise the plans to meet those requirements. Examples of previous plans that may be allowable would be a completed Cal/OSHA or Assembly Bill 86 plan, as long as it meets the requirements previously stated. LEAs which did not have a statutorily compliant plan in place as of March 11, 2021, must create and post this plan within 30 days of completing their ESSER III Assurances.

If you have questions as to which category applies to your LEA, please contact EmergencyServices@cde.ca.gov. Plans are required for all LEAs, regardless of operating status, unless an LEA is fully virtual with no physical location. All plans must be reviewed, and, as appropriate, revised, at least every six months to incorporate new or revised CDC guidance and other changed factors.

This template has been created to assist LEAs in the creation of these plans and to ensure all required elements are met. The following requirements and assurances pertain to both the statutory requirements and the IFR published by ED. LEAs may provide any additional information they believe are helpful in assessing their plan. If you have any questions, please contact EmergencyServices@cde.ca.gov.

LEA Plan for Safe Return to In-Person Instruction and Continuity of Services

LEA Name:

Humboldt County Office of Education

Option for ensuring safe in-person instruction and continuity of services:
has developed a plan

1. Please choose one:

- The LEA had a plan, as of March 11, 2021, that is already compliant with the ARP statute and will review and, as appropriate, revise it every six months to take into consideration the additional requirements of the IFR; or

NOTE: If your LEA already has a compliant plan as of March 11, 2021, and has assured such by checking the box above, then you may skip questions 2-4 and complete the Assurance and Contact sections.

- The LEA has amended/created a plan compliant with the IFR using this template and has posted/will post it within 30 days of completing the ESSER III Assurances.

NOTE: If checking the box above that you are using this template to meet the 30 day plan requirements, you must respond to each question in the template.

Please note whether the LEA has a compliant plan and include a link to the plan, or acknowledge that the LEA is submitting a new plan and will post it within 30 days of receiving funds.

HCOE had a compliant plan at the time the ESSER III Assurances were submitted to CDE (June 24, 2021). As required, HCOE has taken into consideration current guidance and reviewed and updated its plan using the CDE template (12/7/2021). HCOE will continue to review and update its plan at least every 6 months until September 30, 2023.

2. The LEA will maintain the health and safety of students, educators, and other school and LEA staff, and the extent to which it has adopted policies, and a description of any such policies, on each of the CDC's safety recommendations, including: universal and correct wearing of masks; modifying facilities to allow for physical distancing; handwashing and respiratory etiquette; cleaning and maintaining healthy facilities, including improving ventilation; contact tracing in combination with isolation and quarantine, in collaboration with the State, local, territorial, or Tribal health departments; diagnostic and screening testing; efforts to provide vaccinations to school communities; appropriate accommodations for children with disabilities with respect to health and safety policies; and coordination with State and local health officials.

Describe how the LEA will maintain, or continue to maintain, health and safety policies and procedures. Include a description of any adopted policies and procedures regarding the CDC's safety recommendations (or available LEA website links to such policies). Include descriptions of appropriate accommodations adopted and coordination efforts conducted with outside State and local health officials. Please include or describe current public health conditions, applicable State and local rules and restrictions, and other contemporaneous information that informs your decision-making process.

The LEA has been and will be maintaining the health and safety of students, educators and other school and LEA staff by following all local Public Health, CDPH and CDC safety recommendations. The LEA is universally wearing masks; modifying facilities allowing for physical distancing; handwashing and respiratory etiquette; cleaning and maintaining healthy facilities, including improved ventilation systems. The LEA is working with local Public Health to determine staff and student quarantine periods based on current guidance, as well as assisting with contact tracing. Daily and weekly testing facilities have been set up for students and staff for symptomatic student and

staff as well as surveillance testing. Education and Information is being presented to students and staff about upcoming vaccination clinics in the area. Appropriate accommodations for children with disabilities with respect to health and safety policies and in coordination with State and local Public Health Officers.

3. The LEA will ensure continuity of services, including but not limited to services to address students' academic needs and students' and staff social, emotional, mental health and other needs, which may include student health and foodservices.

Describe how the LEA will ensure continuity of services in case isolation, quarantine, or future school closures are required, including how the LEA will meet the needs of students with disabilities and English learners.

The LEA will ensure continuity of services, including but not limited to services to address students' academic needs and students' and staff social, emotional, mental health and other needs, which may include student health and food services. A Tier II casing meeting is held weekly to review students that need more support to address areas of concern. The casing meeting is comprised of a multi-disciplinary team to address the specific area of concern and monitor outcomes.

Our district would continue to ensure the continuity of services for students with disabilities and EL students should there be future school closures. Students with disabilities will continue to receive their services and supports as outlined in their Individual Education Plan (IEP). The delivery of the Specialized Academic Instruction (SAI) will be delivered via online platforms, over the phone, and by consultation. IEP meetings will be held to discuss and identify the preferred method of SAI delivery. Individual Distance Learning Plans were developed at IEP meetings and adjustments were made based on individual student needs. Additional IEP meetings will be held to discuss progress, attendance concerns, and mental health concerns. Supports will be identified and implemented by the IEP team. CCS SPED staff, the administrator, and school psychologist met regularly to identify IEP youth who needed more targeted supports and interventions. EL students will have additional supports as needed. The EL Coordinator will work with teachers to ensure their curriculum has appropriate ELD supports embedded. Virtual tutoring and one-on-one appointments would be offered for students needing more support. Overall, our district has learned so much in this last year and will continue to support students in the most comprehensive way and ensure continuity of services.

4. The LEA sought public comments in the development of its plan and took those comments into account in the development of its plan.

Describe the LEA's policy or practice that provided the public with an opportunity to provide comments and feedback and the collection process. Describe how any feedback was incorporated into the development of the plan.

The Humboldt County Office of Education Court and Community School's has an established process of meaningful community engagement and feedback. Input was gathered via virtual meetings, surveys, in-person focused meetings, and staff input meetings. This process provided feedback from parents, students, community partners, educational staff, and administrators that informed the ESSER III Expenditure Plan and the plan for conducting school safely and providing continuity with instruction.

The surveys developed for parents and students asked questions to identify safety concerns and assessed the level of interest in initiating and maintaining in-person instruction. The survey data clearly indicated that in-person instruction is a priority. Survey data also identified a desire to have additional supports in place for students, which is being addressed through the meetings described in prompt three.

There are also systems in place to ensure ongoing input is collected and considered to ensure that safety concerns and educational needs are being addressed. The school holds team meetings every other week with administrators, union representatives, teachers, and instructional aides to identify needs and strategize supports to meet those needs.

In addition, the LEA provides the following assurances:

- The LEA has made (in the case of statutorily compliant plans) or will make (in the case of new plans) its plan publicly available no later than 30 days after receiving its ARP ESSER allocation.
 - o Please insert link to the plan:
- The LEA sought public comment in the development of its plan and took those public comments into account in the development of its plan.
- The LEA will periodically review and, as appropriate revise its plan, at least every six months.
- The LEA will seek public comment in determining whether to revise its plan and, if it determines revisions are necessary, on the revisions it makes to the plan.
- If the LEA revises its plan, it will ensure its revised plan addresses each of the aspects of safety currently recommended by the Centers for Disease Control(CDC), or if the CDC has revised its guidance, the updated safety recommendations at the time the LEA is revising its plan.
- The LEA has created its plan in an understandable and uniform format.
- The LEA's plan is, to the extent practicable, written in a language that parent can understand, or if not practicable, orally translated.
- The LEA will, upon request by a parent who is an individual with a disability, provide the plan in an alternative format accessible to that parent.

The following person or persons is/are the appropriate contact person for any questions or concerns about the aforementioned plan.

Please list name(s), title(s), address, county, and contact information for the person or persons responsible for developing, submitting, and amending the LEA plan.

Michael Davies-Hughes, Superintendent, 901 Myrtle Ave., Eureka, CA 95501
