2020 CENSUS

Raise children's 2020 Census awareness and enthusiasm by showing them the video best suited to their ages and grade levels, from pre-K through high school. Each video explains the value of census data and why it's important for everyone to be counted, and features engaging and interactive content that can be used to support other Statistics in Schools activities. You can access these videos at: <https://www.census.gov/programs-surveys/sis/2020census/2020-resources/2020-videos.html>
