## TIPS FOR TALKING WITH COLLEGE & CAREER REPS A FEW GOOD QUESTIONS TO ASK:

- What is the school known for?
- Ask about class size & student to teacher ratio.
  - How many classes have 500+ students?
- What percentage graduate in four years?
- Is the SAT/ACT required for admittance to your school?
  - What is the average GPA/SAT and ACT test scores?
- Ask how much the total cost of college is for one year.
- What type of scholarships are offered and what are the requirements?
- Ask about dorm rooms if you plan to stay on campus
- How safe is the campus and its surrounding neighborhoods?
- Do they offer academic support, i.e. EOP, tutoring, services for foster youth, etc.?
- Ask about athletics, if interested.
- Ask about activities on campus during weekends.
- What are their deadlines?
- Do they require a deposit with “intent to attend”?
- Is the school “impacted”? If so, which majors? (“Impacted” means when more applications are received in the initial filing period from eligible applicants than can be accommodated.)
