

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Pacific View Charter School 2.0

CDS Code: 12 75515 1230150

School Year: 2025-26 LEA contact information:

James Malloy

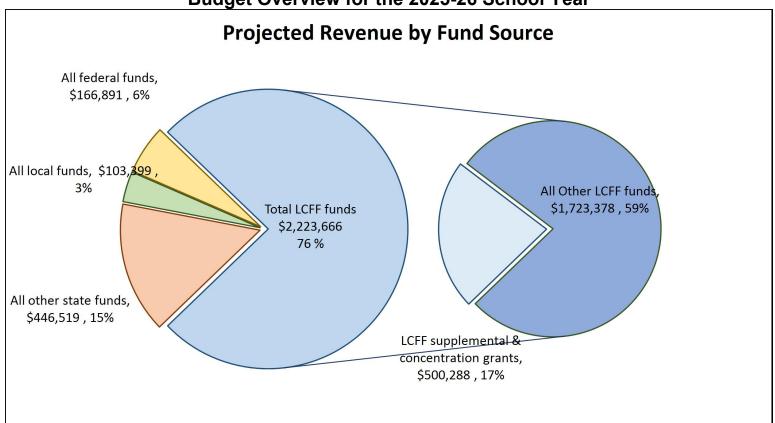

Director

jmalloy@pacificviewcharter.com

707--269--9490

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2025-26 School Year

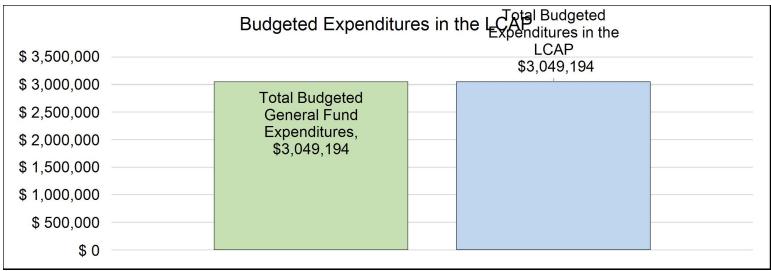

This chart shows the total general purpose revenue Pacific View Charter School 2.0 expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Pacific View Charter School 2.0 is \$2,940,475, of which \$2223666.00 is Local Control Funding Formula (LCFF), \$446519.00 is other state funds, \$103399.00 is local funds, and \$166891.00 is federal funds. Of the \$2223666.00 in LCFF Funds, \$500288.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Pacific View Charter School 2.0 plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

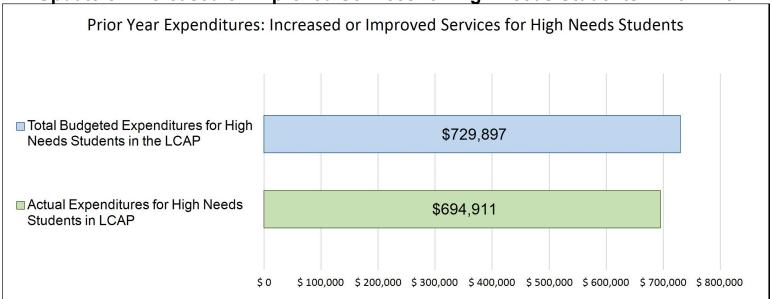

The text description of the above chart is as follows: Pacific View Charter School 2.0 plans to spend \$3049194.00 for the 2025-26 school year. Of that amount, \$3049194.00 is tied to actions/services in the LCAP and \$0 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Pacific View Charter School 2.0 is projecting it will receive \$500288.00 based on the enrollment of foster youth, English learner, and low-income students. Pacific View Charter School 2.0 must describe how it intends to increase or improve services for high needs students in the LCAP. Pacific View Charter School 2.0 plans to spend \$1111470.00 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Pacific View Charter School 2.0 budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Pacific View Charter School 2.0 estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Pacific View Charter School 2.0's LCAP budgeted \$729897.00 for planned actions to increase or improve services for high needs students. Pacific View Charter School 2.0 actually spent \$694911.00 for actions to increase or improve services for high needs students in 2024-25.

The difference between the budgeted and actual expenditures of \$34,986 had the following impact on Pacific View Charter School 2.0's ability to increase or improve services for high needs students:

Grant funds were utilized to provide these services.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Pacific View Charter School 2.0	James Malloy	jmalloy@pacificviewcharter.com
	Director	7072699490

Plan Summary [2025-26]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten—12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Pacific View Charter School 2.0 (PVCS 2.0) is a nonclassroom-based independent study charter school in Humboldt County, California, sponsored by the Eureka City School District. The school operates two resource centers: the Henderson Street Resource Center (HSRC) for grades K-6, with approximately 90 students, and the Moore Avenue Resource Center (MARC) for grades 7-12, with approximately 68 students. MARC is accredited by the Western Association of Schools and Colleges (WASC). The school provides preparatory coursework for students planning to attend college or enter the workforce.

MARC provides an online curriculum that allows students to access learning materials from school or home anytime. Both resource center programs feature small-group instruction that promotes respectful classroom communities. All instructional materials adhere to California State Standards, and highly qualified teachers trained in differentiated instructional techniques employ various teaching methods and styles to establish an instructional approach that complements student's goals and learning styles. The teaching staff values student mentoring and peer collaboration, ensuring that all appropriate grade-level standards are addressed. All teachers monitor, review, and evaluate the assigned lessons of all students.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Upon reviewing the California School Dashboard and local data (2023-2024), Pacific View Charter School (PVCS) has demonstrated notable strengths in certain areas while identifying improvement opportunities. The school has maintained a low chronic absenteeism rate of 4.8%, which is significantly lower than the state average and has even decreased from the previous year. Similarly, PVCS has kept its suspension rate at a very low 0.6%, indicating a positive school climate and effective student support systems.

In terms of graduation rate, PVCS has shown remarkable progress, with a 22.3% increase from the previous year, reaching a high rate of 93.8%. This achievement surpasses the state average and reflects the school's commitment to student success and completion. However, the data also reveals areas where PVCS faces challenges, particularly in academic performance. The college/career readiness rate of 6.7% is considered low, and the school's performance in both English Language Arts (ELA) and Mathematics falls into the "Orange" category, the second-lowest performance level. Students score significantly below the state standards, with one student group (Socioeconomically Disadvantaged) falling into the "Red" category in ELA, the lowest performance level.

These results underscore the need for targeted interventions, equitable resources, and instructional improvements to support all students, especially those from disadvantaged backgrounds, in achieving academic success. By focusing on data-driven decision-making, professional development, and collaborative efforts to address achievement gaps, PVCS can work towards enhancing student outcomes and ensuring that all learners have access to a high-quality education that prepares them for college, career, and beyond.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

N/A

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

n/a

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

n/a

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

n/a

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Elementary School Community Needs Survey	Google Forms Survey January 2024
High School Student Community Needs Survey	Google Forms Survey January 2024
Jr/Sr High School Parent Empathy Conference	In-Person Teacher interviewing all parents November 2023
Staff Evaluation on Strategic WASC Goals	School Wide Collaboration Meeting
Student Climate Survey	Google Forms Survey June 2023
Parent Community Needs Assessment	Google Forms Survey Janaury 2024
Parent Advisory Committe (Title 1 Funds)	Open Forum Second Tuesday of the Month for 2023-2024 School Year

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Pacific View Charter School actively engaged its educational partners through a series of surveys and conferences to gather valuable insights and feedback. In January 2024, both elementary and high school students participated in community needs surveys, providing input on their academic experiences, support needs, and overall well-being. High school parents were involved in empathy conferences in November 2023, fostering open communication and understanding between families and the school. Staff members contributed to the evaluation of strategic WASC goals in February 2024, assessing progress and identifying areas for improvement. The school also conducted a student climate survey in 2023 to gauge perceptions of safety, belonging, and relationships with staff. Additionally, parents participated in a community needs assessment in January 2024, sharing their perspectives on communication, school environment, and desired support services. By actively seeking input from students, parents, and staff through these various engagement initiatives, Pacific View Charter School demonstrated its commitment to understanding and addressing the needs of its diverse educational community.

Based on the 2023-2024 surveys and conferences to engage educational partners, several key trends and areas of need emerge across the different groups:

Parents and students alike strongly emphasize academic growth, with a desire for students to excel academically, gain confidence, and develop independence. However, concerns arise about students falling behind, lacking confidence, and facing challenges such as learning disabilities, mental health issues, and motivational barriers. Parents express a need for targeted academic interventions, particularly in math and reading, as well as support services like tutoring, mentoring, and family resources. As a Title 1 school, funds will incorporate these parent suggestions.

Students across grade levels generally perceive a positive school environment, with caring teachers and a sense of safety. However, some students, particularly in higher grades, report issues with belonging, happiness, and fair treatment. Students also express interest in extracurricular activities, clubs, and hands-on learning experiences. Improving student attendance, addressing instances of bullying, and enhancing social-emotional support stand out as areas for improvement.

From a staff perspective, progress has been made on various WASC action plan goals, such as revising the student handbook and creating pathways. However, further work is needed in developing comprehensive orientation programs, increasing collaboration, and fully implementing strategies to improve student achievement. Staff recognize the importance of diagnostic assessments, clear expectations, and support for college and career readiness. Executing the MTSS plan and providing targeted support for struggling students remain areas for continued focus and development.

In summary, the greatest areas of need based on the stakeholder surveys include:

- 1. Targeted academic interventions and support services, particularly in math and reading.
- 2. Strategies to enhance student engagement, motivation, and social-emotional well-being.
- 3. Continued development and implementation of comprehensive student orientation, support, and achievement programs in alignment with the WASC action plan.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Over the next three years, Pacific View Charter School will develop and implement a comprehensive, data-driven Multiple Tiered System of Support (MTSS) school framework that integrates all students' academic, behavioral, and social-emotional support. This framework will be built upon a foundation of strong collaboration and communication among students, staff, parents, and the community.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)

Priority 2: State Standards (Conditions of Learning)

Priority 3: Parental Involvement (Engagement)

Priority 5: Pupil Engagement (Engagement)

Priority 6: School Climate (Engagement)

Priority 7: Course Access (Conditions of Learning)

Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

This broad transformational goal aligns with our educational partner needs assessments, WASC, and site action plans. By achieving this goal, Pacific View Charter School will significantly enhance its capacity to meet the diverse needs of its students, close achievement gaps, and prepare all learners for success in school and beyond. By June 2027, PVCS will have established a fully operational MTSS system that:

- 1. Utilizes universal screening tools and ongoing progress monitoring to identify students' needs and inform data-based decision-making at all tiers of support.
- 2. Provides high-quality, evidence-based instruction and interventions that are responsive to students' diverse needs and promote equitable access to learning opportunities.
- 3. Engages and empowers staff through ongoing professional development, collaboration, and resource allocation to effectively implement and sustain MTSS practices.
- 4. Fosters meaningful partnerships with parents and the community to support student success, through regular communication, education, and opportunities for involvement.
- 5. Continuously evaluates and refines the MTSS framework based on student outcomes, stakeholder feedback, and best practices in order to ensure a positive, inclusive, and supportive learning environment for all students.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1.1	Teachers, Instructional Materials, and Facilities. P1	100% of teachers and administrators are fully credentialed, all students have access to standards-aligned instructional materials, and facilities are in good repair. (2023-2024 Local Data)	students have access to standards-aligned		Maintain 100% of teachers are fully credentialed, all students have access to standards-aligned instructional materials, and facilities are in good repair.	Maintained
1.2	Implementation of State Standards. P2	Academic content standards including English learners, are fully implemented. (2023-2024 Local Data)	Academic content standards including English learners, are fully implemented. (2024-2025 Local Data)		Maintain academic content standards including English learners, are fully implemented.	Maintained
1.3	Parent Involvement. P3	Seek parent input in decision making, including our MTSS Frameworks, and promotion of parent participation in programs for unduplicated pupils and special need subgroups. (2023-2024 Local Data)	Seek parent input in decision making, including our MTSS Frameworks, and promotion of parent participation in programs for unduplicated pupils and special need subgroups. (2024-2025 Local Data)		Continue to seek parent input for all grades in decision making, including our MTSS Frameworks, and promotion of parent participation in programs for unduplicated pupils and special need subgroups. Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

In the first year of implementation of its three-year goal to develop a comprehensive, data-driven Multi-Tiered System of Support (MTSS) framework, Pacific View Charter School (PVCS) made meaningful foundational progress. The initial focus was on building staff awareness and aligning MTSS efforts with the school's community school initiatives, WASC recommendations, educational partner input, and existing site action plans. While the original plan included a full rollout of universal screening tools, this was only partially implemented due to time constraints and the need for additional staff capacity. Screeners for academics were piloted in select grade levels, but behavioral and social-emotional screeners were not yet deployed consistently. Similarly, while the framework envisioned immediate development of Tier 2 and Tier 3 interventions, most of the implementation centered on strengthening Tier 1 supports, identifying best instructional practices, and establishing consistent expectations across classrooms.

Professional development was initiated to introduce staff to MTSS principles, but comprehensive and ongoing training was delayed due to limited scheduling availability. Although parent and community engagement strategies were planned as a core component of MTSS, actual implementation was limited to improved communication through tools like newsletters and digital platforms such as ParentSquare are still being debated due to costs. There were increased structured engagement events and parent education workshops at both sites due to our community school initiatives. Feedback mechanisms for evaluating the MTSS framework were initiated through discussions with instructional staff at the MARC with formal evaluation cycles and data analysis processes sent to the California MTSS using their FIA and SIT tools.

Despite some challenges, PVCS experienced several successes. Leadership maintained a strong commitment to MTSS implementation, and staff demonstrated a high level of buy-in and willingness to learn. The school's efforts were strategically aligned with its WASC goals and needs assessment findings, ensuring coherence and sustainability. Infrastructure improvements, such as revised data collection processes and early progress monitoring tools, laid the groundwork for deeper implementation in future years. Additionally, initial professional development sessions successfully introduced core MTSS concepts like PBIS TIER 1 execution and clarified staff roles and responsibilities.

The main challenges encountered included limited community engagement in MTSS decisions and leadership. Delays in selecting and implementing screening tools, particularly for social-emotional learning, also impacted the school's ability to fully execute its data-based decision-making processes. Furthermore, while communication with families improved, deeper parent and community engagement activities were not realized in Year 1.

Overall, while some planned actions were delayed or scaled back, PVCS laid essential groundwork for a successful MTSS framework. The school is well-positioned to build upon these early efforts in Year 2, focusing on expanding universal screening, implementing Tier 2 supports and Tier 2 PBIS, enhancing professional development, and launching more robust parent engagement strategies. These next steps will continue to advance the goal of establishing a fully operational, inclusive, and data-informed MTSS system by June 2027.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There was a material difference between the budgeted expenditures and estimated actual expenditures for Goal 1, Action 1, primarily due to higher-than-anticipated costs associated with hiring new employees. At the time of budget adoption, projected expenses were based on estimated salary schedules and benefit rates; however, actual hiring resulted in increased costs due to a combination of factors. As a result, the estimated actual expenditures for this action exceeded the original budgeted amount. This variance impacted the overall percentage of improved services, as a greater proportion of funds were allocated toward staffing than initially planned, reflecting the school's commitment to ensuring appropriate staffing to support student learning and MTSS implementation despite rising personnel costs.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

To date, Pacific View Charter School has made meaningful initial progress toward its three-year goal of developing and implementing a comprehensive, data-driven Multi-Tiered System of Support (MTSS) framework that addresses students' academic, behavioral, and social-emotional needs. While full implementation is still in development, foundational steps—such as increased staffing, professional development, community school engagment, and initial rollout of academic screeners—have laid the groundwork for a systemic shift. Staff have begun to build a shared understanding of MTSS principles, and collaboration among educators has increased through early-stage planning and resource alignment. Communication tools with parents and the broader school community have improved and will continue in the following years, though deeper engagement strategies remain an area for growth. Despite some delays and challenges, the efforts made thus far reflect a strong commitment to equity, inclusion, and continuous improvement. These early actions have been effective in initiating the cultural and structural changes necessary to support a fully operational MTSS framework by the end of the three-year timeline.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

No changes were made to the planned goal, metrics, target outcomes, or actions for the coming year, as reflections on prior practice affirmed the relevance and alignment of the current plan with the school's long-term vision for MTSS implementation.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Basic Services	All classroom teachers and administrators are fully credentialed and appropriately assigned based on their credential. In addition, instructional materials are aligned to the California State Common Core Standards and a sufficient number of texts/materials are available to all students in all grade levels. School facilities, although leased, are kept in good repair as measured by the FIT.	\$1,521,044.00	No
1.2	Access and Enrollment in a Broad Course of Study	All students enrolled at both sites (HSRC EC 51210 and MARC EC 51220(a)-(i)) have access to enrollment and a broad course of study as evidence by CALPADS and The California State Dashboard CCI and Graduation metrics.	\$417,223.00	No Yes
1.3	Community School Implementation and Engagement	From a developed Community School strategic action plan, Pacific View Charter will allocate resources to support the 4 Pillars of a California Community School to support both schools MTSS framework and MTSS continuous improvment engagement: 1. Integrated Student Supports: Addressing students' academic, social-emotional, and physical health needs Providing access to resources such as counseling, health services, and social services Collaborating with community partners to offer additional support and resources	\$150,000.00	No Yes
		2. Family and Community Engagement: Building strong relationships with students' families and the broader community Involving families in decision-making processes and school activities Providing opportunities for family education, leadership, and empowerment		

Action #	Title	Description	Total Funds	Contributing
		Partnering with community organizations to enhance learning experiences and opportunities 3. Collaborative Leadership and Practices: Fostering a shared leadership model that includes administrators, teachers, staff, students, and families Emphasizing professional development and continuous improvement for all staff members Promoting a culture of collaboration, trust, and collective responsibility Engaging in data-driven decision-making and regularly assessing school practices 4.Extended Learning Time and Opportunities: Offering expanded learning time, such as longer school days or years, to provide additional academic support Providing enrichment activities, such as arts, music, sports, and community service projects Creating opportunities for experiential and project-based learning Partnering with community organizations to offer internships, apprenticeships, and other real-world learning experiences in aims to create a comprehensive, equitable, and engaging learning environment that supports the whole child and promotes long-term success.		
1.4	Full MTSS implementation and data driven continous improvement plans	School sites will train staff and adopt the Current California state MTSS framework. After all staff are trained at both sites, staff will utilize community partners, student, parents, and staff to create a MTSS handbook along with the elements and resources needed to execute such handbook. The elements of MTSS in California State Schools include: 1. High-quality, differentiated classroom instruction: Providing engaging, standards-aligned instruction that meets the diverse needs of all students Using research-based instructional strategies and materials Regularly assessing student progress and adjusting instruction accordingly 2. Universal screening and early identification:	\$36,137.00	No Yes

Action # Title	Description	Total Funds	Contributing
	Conducting regular assessments to identify students who may need additional support Using valid, reliable, and culturally responsive screening tools Analyzing data to inform instructional decisions and interventions		
	3. Tiered levels of support: Tier 1: High-quality, universal instruction for all students Tier 2: Targeted interventions for students who need additional support Tier 3: Intensive, individualized interventions for students with significant needs		
	4. Data-driven decision making: Using multiple sources of data to guide instructional and intervention decisions Regularly monitoring student progress and adjusting support as needed Collaborating with school teams to analyze data and plan interventions		
	5. Collaborative problem-solving teams: Establishing school-based teams that include administrators, teachers, specialists, and families Meeting regularly to review data, discuss student needs, and plan interventions		
	Coordinating resources and support across grade levels and content areas 6. Family and community engagement: Involving families in the MTSS process and decision-making Providing regular communication and resources to support learning at home Collaborating with community partners to provide additional support and resources		
	7. Continuous improvement and professional learning: Providing ongoing professional development for all staff members on MTSS practices Regularly evaluating the effectiveness of MTSS implementation and making data-driven improvements Sharing best practices and collaborating with other schools and districts		

Action #	Title	Description	Total Funds	Contributing
1.5	Campus	Both sites will continue to make upgrades to both sites to support our	\$229,688.00	No
	Improvements	MTSS and Community school efforts. MARC is in the planning stages of a multipurpose outdoor assembly area that can be converted into recreation and future vehicle space. HSRC will continue to make campus improvements in the classroom, kitchens, hallways, office and playgrounds.		Yes

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Over the next three years, Pacific View Charter School will focus on significantly improving student achievement as measured by the California School Dashboard and local academic indicators. By June 2027, PVCS aims to:	Focus Goal
	 Increase the percentage of students meeting or exceeding standards in English Language Arts (ELA) and Mathematics on state assessments by at least 20 percentage points, with a particular focus on closing achievement gaps for student groups in the "Red" and "Orange" categories. Ensure that all student groups, including those currently in the "Red" and "Orange" categories, demonstrate continuous improvement and progress toward the "Green" or "Blue" performance levels on the California School Dashboard. Implement a robust, standards-aligned curriculum and instructional practices that promote critical thinking, problem-solving, and college and career readiness skills across all grade levels. Utilize formative and summative assessments to regularly monitor student progress, inform instruction, and provide targeted interventions and support to students who are struggling academically. Provide ongoing professional development and collaboration opportunities for teachers and staff to enhance their skills in data analysis, differentiated instruction, and evidence-based practices that support student learning and achievement. 	

State Priorities addressed by this goal.

Priority 2: State Standards (Conditions of Learning)

Priority 4: Pupil Achievement (Pupil Outcomes)

Priority 5: Pupil Engagement (Engagement)

Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

This academic focus goal aligns with our educational partner needs assessments, WASC, and site action plans. By achieving these goals, Pacific View Charter School will demonstrate significant growth in student achievement, exceed state and local academic indicators, and ensure that all students are well-prepared for success in high school, college, and beyond. This commitment to academic excellence and continuous improvement will position PVCS as a model for student success, equitable outcomes in the region.

Measuring and Reporting Results

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

In the first year of implementation of Goal 2, Pacific View Charter School began building the foundation for improved student academic achievement as outlined in its multi-year plan. The school prioritized standards-aligned instruction, increased professional development, and preliminary data analysis efforts in order to begin addressing the significant achievement gaps identified in baseline performance data. Despite these efforts, academic outcomes as measured by the CAASPP in English Language Arts (ELA) and Mathematics show that Pacific View remains in the "Red" performance band overall. In ELA, the percentage of students meeting or exceeding standards was 29.82% (HSRC) and 34.38% (MARC), indicating that nearly 70% of students remain below standard. Similarly, in Math, only 12.28% (HSRC) and 6.25% (MARC) of students met or exceeded standards, with over 85% of students still performing below grade level. While these outcomes reflect a continuation of past trends, they also highlight the urgency and complexity of the work ahead.

The school did implement several key components of its improvement plan, including the delivery of targeted professional development and the use of formative assessment practices in certain grade levels. However, there were substantive differences between what was originally planned and what was fully implemented. For instance, while curriculum alignment was a priority through an IXL diagnostic, there was limited training, and limited consistent implementation across classrooms. Likewise, while staff received initial training in data use, challenges remained in translating student performance data into targeted instructional strategies. Despite these obstacles, Pacific View made measurable progress in areas such as English Learner progress—where 100% of students assessed were reported as making progress toward English proficiency—and a strong graduation rate of 93.8%. Additionally, the school maintained low suspension rates, with "Green" status on the Dashboard for both all students (.6%) and socioeconomically disadvantaged students (.7%).

While most academic indicators did not show marked improvement in this first year, Pacific View Charter School has succeeded in laying the groundwork for more targeted and effective instructional practices. The implementation challenges experienced have informed the school's plan to provide deeper, job-embedded professional development and refine assessment practices moving forward. The early progress seen in student engagement and English Learner growth, coupled with staff commitment to continuous improvement, reflects an encouraging foundation for long-term gains. With the systems and infrastructure for progress monitoring and intervention still under development, Year 1 served as a critical capacity-building phase. Looking ahead, the school will need to intensify efforts to accelerate student learning, particularly for student groups in the "Red" and "Orange" performance levels, in order to meet the ambitious goal of increasing student proficiency by 20 percentage points by June 2027.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between the Budgeted Expenditures and Estimated Actual Expenditures, nor between the Planned Percentages and Estimated Actual Percentages of Improved Services for this goal.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

To date, the actions implemented under Goal 2 have laid a meaningful foundation for improved student outcomes, though the overall effectiveness has been mixed and progress remains in early stages. The adoption and development of diagnostic and prescription tools for ELA and Math have been partially effective in identifying student learning needs. Screening assessments have been administered quarterly, and staff have begun using formative assessments and data review protocols in collaborative meetings. This diagnostic process has enabled teachers to begin grouping students for targeted interventions across Tier 1 and Tier 2 support levels. However, full implementation of Tier 3 individualized interventions is still developing, and the depth of differentiation in classroom instruction varies across teachers. Professional development for data-driven instruction has increased staff capacity, but more consistency and time for data analysis and intervention planning are needed to strengthen the impact of this approach.

In supporting students with disabilities, the school has made promising progress in designing individualized post-secondary transition plans. Staff have begun integrating career exploration, self-advocacy skills, and independent living workshops into the curriculum. Partnerships with external agencies and providers are forming, which has supported more authentic, real-world learning experiences for students. Monitoring systems and family collaboration structures have improved, and the school has taken measurable steps toward aligning students' IEP goals with post-secondary success pathways. While these efforts are commendable, the effectiveness of the program will depend on consistent implementation, ongoing tracking of student outcomes, and the expansion of offerings and support services aligned with student interests and needs.

The school has also taken initial steps toward increasing post-secondary success for all students through expanded access to CTE pathways, dual and concurrent enrollment opportunities, and a stronger emphasis on academic counseling and credit recovery. While these actions have increased student awareness and access to college and career readiness options, the impact on College and Career Indicator Readiness remains limited at this stage. With only 6.7% completion reported on the 2023 Dashboard, there is a clear need to scale efforts, align graduation requirements more tightly to A-G standards, and strengthen implementation of "D/F" recovery programs. These early actions, while directionally aligned with the school's goals, must be deepened and sustained over the next two years to fully realize their intended impact.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

As a result of reflections on prior practice and analysis of student performance data, several refinements have been made to the planned actions for the coming year under Goal 2. Specifically, there will be an increased emphasis on strengthening Tier 2 and Tier 3 intervention systems to provide more targeted and individualized academic support in both ELA and Math. Additionally, the school plans to enhance data analysis practices by providing more structured time for teacher collaboration focused on assessment results and instructional adjustments. In response to ongoing challenges in improving College and Career Indicator Readiness, actions will be expanded to include more comprehensive academic counseling, a review of graduation requirement alignment with A-G criteria, and intentional outreach to increase student enrollment in dual/concurrent enrollment and CTE pathway programs. Furthermore, support for students with disabilities will be refined through stronger integration of transition planning into regular instruction and expanded collaboration with community partners. These changes aim to build upon the foundational work already underway and accelerate progress toward meeting the school's long-term academic achievement goals.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action # Title		Description	Total Funds	Contributing
Stud	gnostic and dent Prescription ELA and Math	Both sites will develop or adopt a diagnostic and prescription tool(s)/process for ELA and Math that: Diagnose student learning, we will: 1. Administer universal screening assessments three times per year to identify students who may need additional support. 2. Use formative assessments and classroom observations to monitor student progress and adjust instruction accordingly. 3. Analyze student data regularly in collaborative team meetings to identify trends, gaps, and areas for improvement. Prescribe student interventions based on individual or group need: Tier 1: Provide high-quality, differentiated instruction in the classroom that meets the diverse needs of all students. Tier 2: Offer targeted, small-group interventions for students who need additional support in specific skill areas. Tier 3: Develop intensive, individualized interventions for students with significant needs, in collaboration with families and specialists. Throughout the intervention process, we will: 1. Monitor student progress regularly using a variety of assessment tools and data sources. 2. Adjust interventions as needed based on student response and progress. 3. Communicate regularly with families and involve them in the intervention process. 4. Provide ongoing professional development and support for teachers and staff to ensure high-quality instruction and intervention.	\$402,539.00	No Yes

Action #	Title	Description	Total Funds	Contributing
2.2	Success for Students with Disabilities	Support students with disabilities in post-secondary transitions by developing individualized plans, providing career exploration opportunities, offering targeted coursework and skill-building aligned with their goals, and collaborating with community partners to ensure real-world learning experiences. We will integrate self-determination and self-advocacy skills into the curriculum, teach students their rights and responsibilities, assist with the college application process, and offer workshops on independent living skills. Throughout the transition process, we will monitor progress, collaborate with families and adult service providers, celebrate successes, and provide ongoing support to help students thrive in their chosen paths.	\$251,680.00	No
2.3	Post Secondary Success for all Students	Increase College and Career Indicator Readiness by allocating funds to increase access to CTE pathway completion, community college dual/concurrent enrollment, align graduation requirements to A-G completion, secondary academic counseling, and mandatory "D/F" recovery programs.	\$40,883.00	No Yes

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.1	Action: Basic Services Need: Basic staff and facility actions are required to align with our vision and mission. At our WASC Accredited California Public School, we're committed to fostering an environment where all students thrive academically, socially, and personally. We believe in providing a dynamic and innovative	 Basic services must fund staff and facilities at both school sites to support all students, including "low-income." The Staff and facility actions will address all students including unduplicated populations. 	1.1 Teachers, Instructional Materials, and Facilities. Supplementary Indicators Include metric #s 1.2-1.7

st ba st th ea ca de or ac	educational experience tailored to each student's unique needs and interests. This pasic services action provides the highest standards of excellence in education, ensuring hat our students receive a well-rounded education that prepares them for success in college, career, and beyond. Our school demographic identifies with 80% or more of our students as "low-income". Therefore all actions will be written for support for		
s	unduplicated student group "low-income." Scope:		
A S N C th E S aı FC S E P T	Action: Access and Enrollment in a Broad Course of Study Need: CA Ed Code 51220. For students in grades 1 hrough 6, a Broad Course of Study includes English, Mathematics, Social Sciences, Science, Visual and Performing Arts, Health, and Physical Education courses. For students in grades 7 through 12, a Broad Course of Studies includes courses in English, Social Sciences, Foreign Language, Physical Education, Science, Mathematics, Visual and Performing Arts, Applied Arts, and Career Technical Education. Our school demographic identifies 80% or more of our students as "low-income." Therefore, all actions will be written to support	Resource allocations to fund access to a broad course of study for State Law Compliance. Our current greatest need is at the 7-12 level in Career Technical Education. K-12 greatest need is an increase in visual and performing arts. Therefore, allocations are LEA-wide.	1.6 All pupils are enrolled in a broad course of study. Supplementary Indicators Include: 1.2 Implementation of State Standards

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide		
1.3	Action: Community School Implementation and Engagement Need: Pacific View Charter received a 5-year implementation grant for Community School. This implementation grant funds a school liaison to carry out a shared educational partner's "strategic action plan." This action plan will support all students, including unduplicated students, with services outside the school in the community based on the four pillars of community school: 1. Integrated Student Supports 2. Family and Community Engagement 3. Collaborative LEadership and Practices 4. Extended Learning Time and Opportunities Scope: LEA-wide	Pacific View Charter received a 5-year implementation grant for Community School. Additional resources must be allocated to support future community school actions and measures. Such as transportation to community resources, family and community engagement, integrated student supports (wrap-around services/mental health), and extended learning opportunities. Collaborative Leadership Practices also require funding nonprofessional development and developing a culture of collaboration and continuous improvement.	1.4 Sense of Safety and School Connectedness1.3 Parent Involvement1.5 Attendance Rate1.7 Student Enrollment
1.4	Action: Full MTSS implementation and data driven continous improvement plans Need:	MTSS is an organizational framework based on collaboration and shared responsibility of all staff. This action will be transformational across the Pacific View Charter Organization, requiring asset allocation in professional development certification, program alignment to the framework,	1.1-1.7 -Teachers,Instructional materials, and Facilities -Implementation of Stat Standards -Parent Involvement

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	A comprehensive framework is needed to streamline resources to address the academic, behavioral, and social-emotional needs of all students. The goal of MTSS is provide a proactive, data-driven approach to identify and support students who may be struggling, ensuring that they receive the appropriate interventions and resources to succeed. MTSS requires collaboration and shared responsibility: Fostering a culture of collaboration among school staff, families, and community partners to support student learning and well-being. Scope: LEA-wide	and adoption of site MTSS handbooks that contain additional measures to integrate community school assets.	-Sense of Safety and School Connectedness -Attendance Rate -Pupil Access to a Broad Course of Study -Student Enrollment
1.5	Action: Campus Improvements Need: General Upkeep at both sites and technological upgrades required. Additional campus allocations are needed for our full MTSS and community school adoption. Scope: LEA-wide	MTSS and community school adoption is occurring at both sites and may require LEA-Wide allocation adoptions.	1.4 Sense of Safety and School Connectedness Supplementary Indicators: 1.3 Parent Involvement 1.5 Attendance Rate 1.7 Student Enrollment
2.1	Action: Diagnostic and Student Prescription for ELA and Math Need:	Resources must be allocated for both schools to develop or adopt a diagnostic and prescription process for students to attain grade-level averages on ELA and Math CAASPP testing. This measure is LEA-wide because the entire LEA is affected.	2.1 ELA CAASPP Scores 2.2 Math CAASPP Scores

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Students are struggling in Math and ELA (LEA-wide), as demonstrated in metrics from the past LCAPS and educational partner surveys. A student-centered diagnostic and prescription approach would identify needs and provide intervention. Based on the 2023 Dashboard, our low-income student demographics are the greatest need subgroup. Scope: LEA-wide		
2.2	Action: Success for Students with Disabilities Need: Resource allocations are needed for identification and support for students with disabilities. These students need extra resources and support to meet their IEP goals and future success beyond. At the secondary level, additional resources are needed for work readiness, daily living skills, and possible college entrance. Scope:	Both sites contain students with IEPs. Therefore this is an LEA wide action.	2.1-2.8 -ELA CAASPP Scores -Math CAASPP Scores -CAST Scores -English Learner Progress -English Learner Reclassification Rate -CCI Readiness -Graduation Rate -Suspension/Expulsion Rate
2.3	Action: Post Secondary Success for all Students Need: College and Career Readiness is 6% at Pacific View Charter. This metric is our lowest metric and needs a greater targeted support. In	This is a Schoolwide action for the MARC because the school contains 9-12th grade students.	2.6 College and Career Readiness 2.7 Graduation Rate

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	order to be CCI ready, students need access to CTE, community college, and A-G support.		
	Scope: Schoolwide		

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	· ,	Metric(s) to Monitor Effectiveness

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

N/A

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Pacific View Charter allocates funding to many part time certificated staff to maintain a small student to certificated staff ratio. Moreover, certificated staff are contracted to provide CTE and SPED services. As a school with a greater than 80% listed below the poverty level, all measures specifically target that population and utilize the additional concentration grant add-on funding. English learner population and foster youth vary year to year usually making up .1%-5% our population. However, internal measures are made to provide supports for those students as well.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		1/25
Staff-to-student ratio of certificated staff providing direct services to students		1/8

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- Comprehensive Strategic Planning: The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- Meaningful Engagement of Educational Partners: The LCAP development process should result in an LCAP that reflects decisions made through
 meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs
 and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be
 included in the LCAP.
- Accountability and Compliance: The LCAP serves an important accountability function because the nature of some LCAP template sections
 require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - NOTE: As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK-12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community
 challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
 and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of EC Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
 - If the LEA has unexpended LREBG funds the LEA must provide the following:
 - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
 - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
 - An explanation of how the action is aligned with the allowable uses of funds identified in <u>EC Section 32526(c)(2)</u>;
 - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by <u>EC Section 32526(d)</u>.
 - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the <u>LREBG Program Information</u> web page.
 - Actions may be grouped together for purposes of these explanations.
 - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
 - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by EC
 Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

• If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as "Not Applicable."

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

• Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: <u>EC Section 52060(g)</u> and <u>EC Section 52066(g)</u> specify the educational partners that must be consulted when developing the LCAP:

• Teachers,

- · Principals,
- Administrators,
- Other school personnel,
- · Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: <u>EC Section 47606.5(d)</u> requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see <u>Education Code Section 52062</u>;
 - Note: Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of EC Section 52062(a).
- For COEs, see Education Code Section 52068; and
- For charter schools, see Education Code Section 47606.5.

• **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other
 engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to
 engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the
 engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of
 educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - · Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs
 Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The <u>LCFF State Priorities Summary</u> provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing
 at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing,
 subject matter preparation, and retention of the school's educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: <u>EC Section 42238.024(b)(1)</u> requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a
 focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- Required metrics for LEA-wide actions: For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- Required metrics for Equity Multiplier goals: For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- Required metrics for actions supported by LREBG funds: To implement the requirements of EC Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
 - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric

• Enter the metric number.

Metric

• Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the threeyear plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
 - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

• When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

 Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year
 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "Measuring and Reporting Results" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 . Leave blank until then.	Enter information in this box when completing the LCAP for 2026–27 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 and 2026–27. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. "Effective" means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - o Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

• Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. "Effectiveness" means the degree to which the actions were successful in producing the target result and "ineffectiveness" means that the actions did not produce any significant or targeted result.
 - o In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a threeyear period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven
 effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action
 and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action

Enter the action number.

Title

• Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
 - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
 - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

• Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No.
 - Note: for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum.
 - Language acquisition programs, as defined in EC Section 306, provided to students, and
 - Professional development for teachers.
 - o If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

• LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of EC Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
 - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to <u>EC Section</u> 32526(d). For information related to the required needs assessment please see the Program Information tab on the <u>LREBG</u>

<u>Program Information</u> web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the <u>California Statewide System of Support LREBG Resources</u> web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical
 assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by
 the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in <u>EC Section 32526(c)(2)</u>.
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each
 action supported by LREBG funding the action description must:
 - Identify the action as an LREBG action;
 - Include an explanation of how research supports the selected action;
 - Identify the metric(s) being used to monitor the impact of the action; and
 - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for any action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

 Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

• Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

• Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

• Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

• Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required
Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be
increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section
15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

• An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the
 number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55
 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a
 single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must
 describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who
 provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing
 support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that
 is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration
 of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - o The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - o The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word "input" has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body: 2025-26 Local Control and Accountability Plan for Pacific View Charter School 2.0

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- LCAP Year: Identify the applicable LCAP Year.
- 1. Projected LCFF Base Grant: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- 2. Projected LCFF Supplemental and/or Concentration Grants: Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- 3. Projected Percentage to Increase or Improve Services for the Coming School Year: This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- LCFF Carryover Percentage: Specify the LCFF Carryover Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- Total Percentage to Increase or Improve Services for the Coming School Year: This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- Goal #: Enter the LCAP Goal number for the action.
- Action #: Enter the action's number as indicated in the LCAP Goal.
- Action Title: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- Contributing to Increased or Improved Services?: Type "Yes" if the action is included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - Scope: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - Unduplicated Student Group(s): Regardless of scope, contributing actions serve one or more unduplicated student groups.
 Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - Location: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- Total Personnel: Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- LCFF Funds: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - Note: For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- Other State Funds: Enter the total amount of Other State Funds utilized to implement this action, if any.
 - Note: Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- Local Funds: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- Total Funds: This amount is automatically calculated based on amounts entered in the previous four columns.
- Planned Percentage of Improved Services: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
 - For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

• Estimated Actual Expenditures: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- 6. Estimated Actual LCFF Supplemental and/or Concentration Grants: Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- Estimated Actual Expenditures for Contributing Actions: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- Estimated Actual Percentage of Improved Services: For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

• 9. Estimated Actual LCFF Base Grant: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

• 10. Total Percentage to Increase or Improve Services for the Current School Year: This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - o This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- 5. Total Planned Percentage of Improved Services
 - o This percentage is the total of the Planned Percentage of Improved Services column.
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

• 6. Estimated Actual LCFF Supplemental and Concentration Grants

 This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

• 4. Total Planned Contributing Expenditures (LCFF Funds)

o This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).

• 7. Total Estimated Actual Expenditures for Contributing Actions

This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).

• Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)

 This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

• 5. Total Planned Percentage of Improved Services (%)

This amount is the total of the Planned Percentage of Improved Services column.

• 8. Total Estimated Actual Percentage of Improved Services (%)

This amount is the total of the Estimated Actual Percentage of Improved Services column.

• Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)

 This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)

o If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

• 13. LCFF Carryover — Percentage (12 divided by 9)

 This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
