

PARTNER BENEFITS

1. Students will be better prepared and interested in being employed locally rather than thinking they have to leave to find quality work or education opportunities.
2. Engaging with students leads to a better educated workforce which attracts more industries to our region and strengthens our local economy.
3. Students get more excited about learning when they see how it relates to their interests; you can help reinforce that relevance.
4. Increased graduation rates reduces incarcerations and public assistance costs which positively affects the economic base of our region.
