

CENSUS ACTIVITIES

RESOURCE GUIDE FOR EDUCATORS

1

LET'S GET THE COUNT RIGHT!

This worksheet focuses on how the decennial census benefits students, their families, and their communities, highlighting why participation is important. Use this worksheet as a starting point or introduction to the 2020 Census. For students in kindergarten through second grade, this worksheet focuses on basic concepts, such as what the U.S. Census Bureau does and how the census helps the students'

2

DIVERSITY: LANGUAGES AT HOME

Students will learn about the differences among students in a classroom, focusing on students' homes and the languages spoken in their homes. To help students understand how communities thrive with a broad diversity of residents, this worksheet focuses on simple data points that show the different languages spoken at home across the country.

3

CREATING AND TAKING A SURVEY

Students will learn how surveys work, why they are useful, and how to create and conduct their own. This activity will explain how the decennial census is like a survey, but of all people in the country, and will help students understand how the census relates to the surveys they are creating.
