

# Penny's History Museum

The Dinosaur and Cavemen Museum

Arrowheads were  
used by native  
americans to hunt.

some fossils  
are millions of  
years old.

A fossil shell is displayed on a white board. The board has a background image of a coastal town with a stone wall and a building with a conical roof. The text on the board reads: "The oldest fossil was 3.5 billion years old."

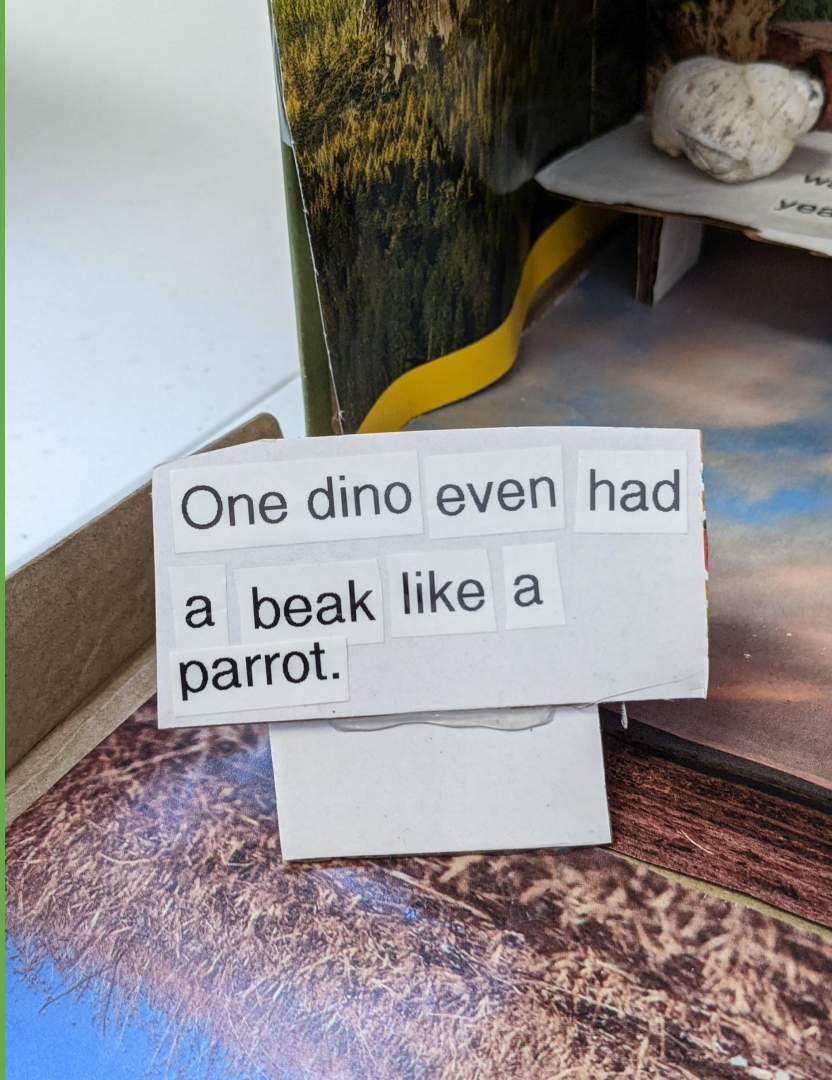

The oldest fossil  
was 3.5 billion  
years old.

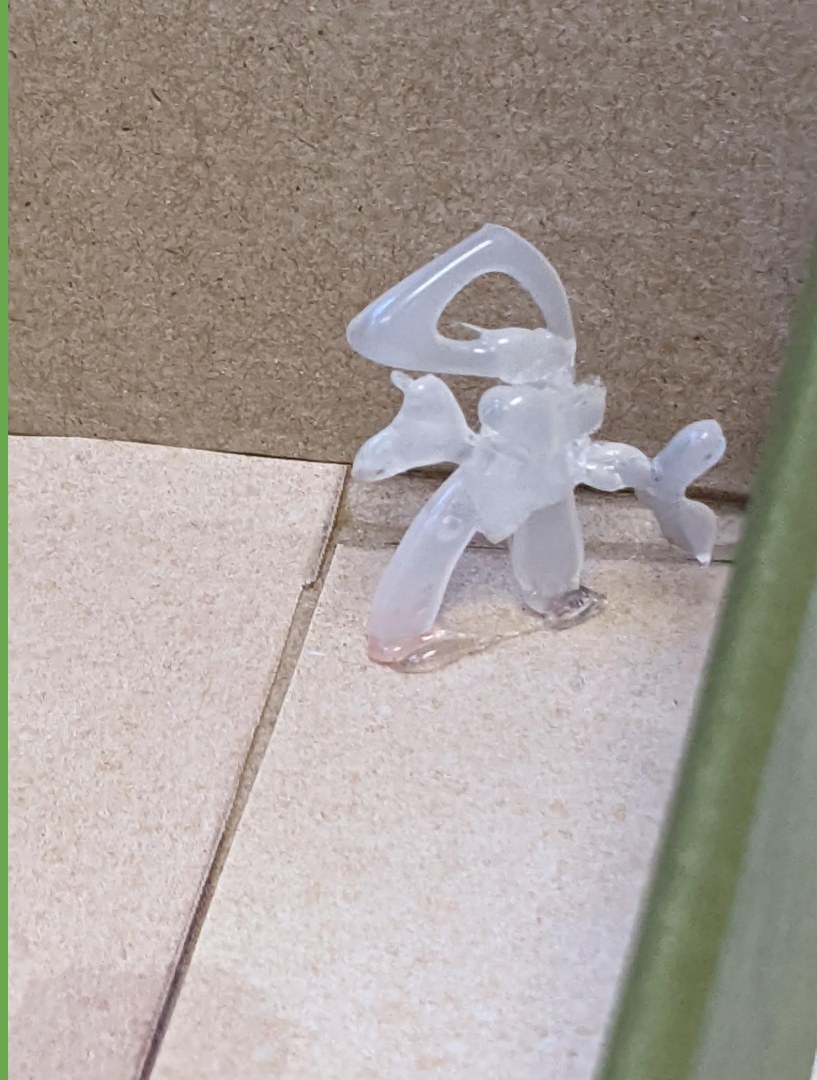

Some dinos live to  
be 🐢 100 years  
old.

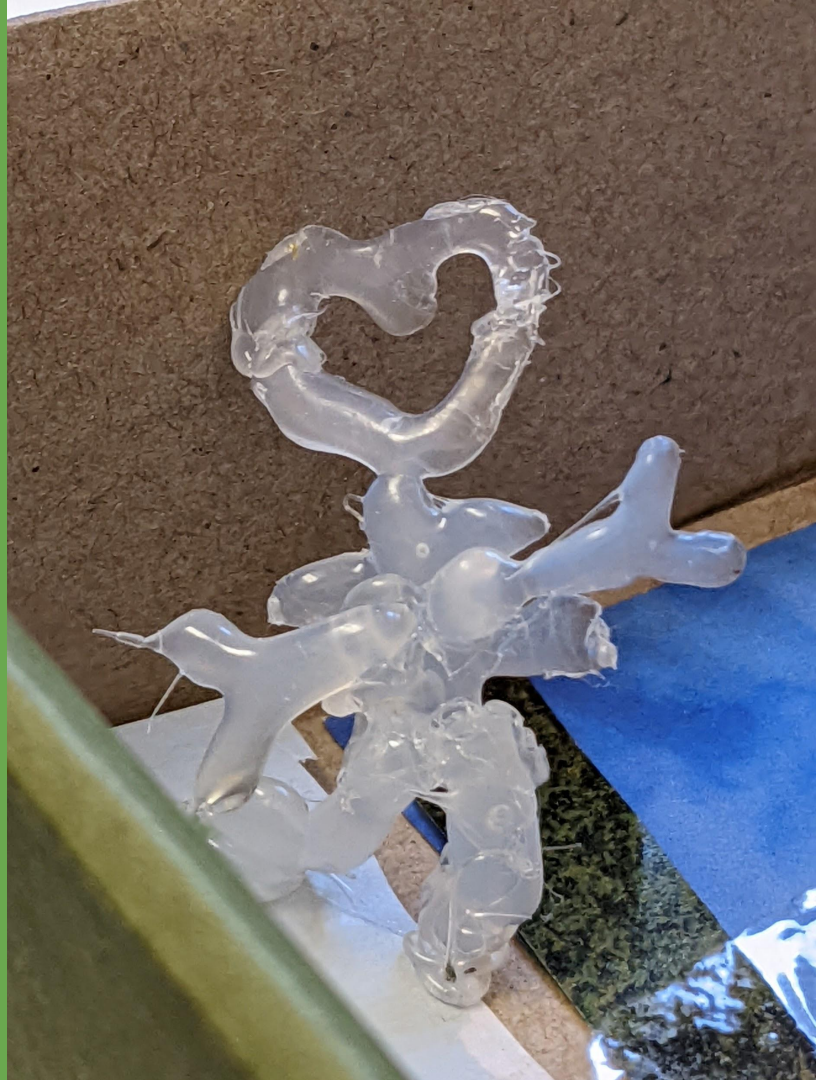

Some fossils  
are millions of  
years old.

and present  
day animals  
are millions of  
years old.

One dino even had  
a beak like a  
parrot.

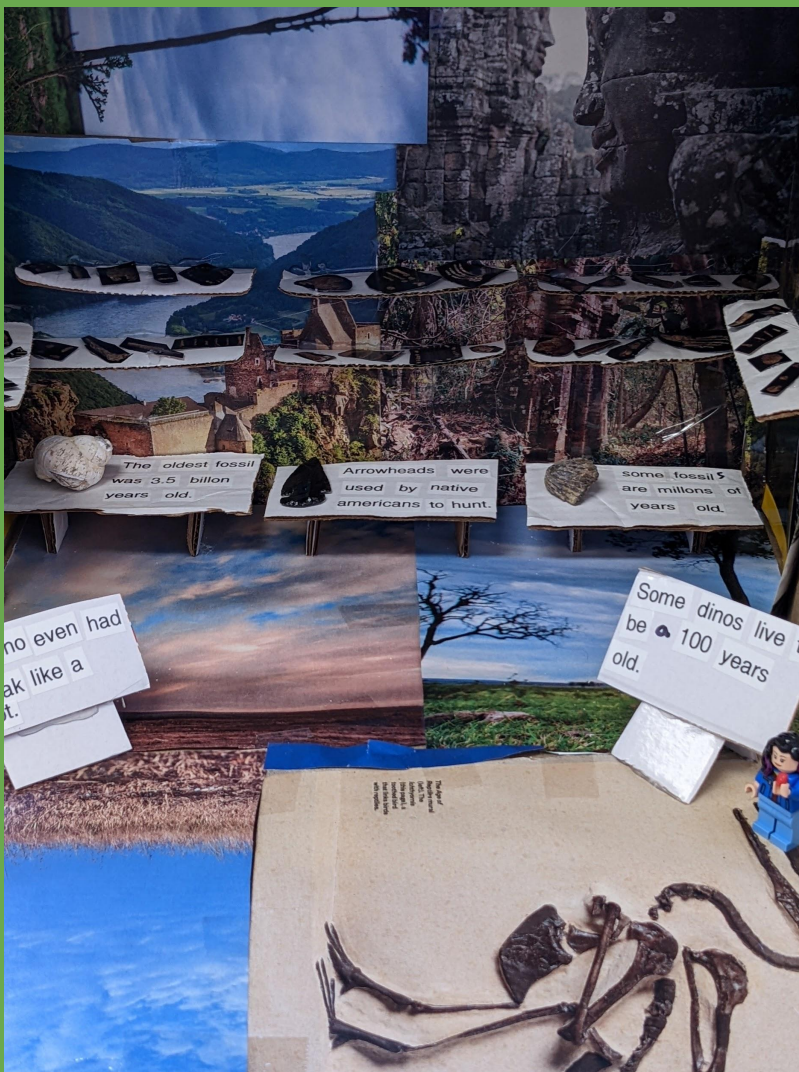

Micropachycephalosaurus  
is the longest of all dinosaur  
names, but it belongs to  
one of the smallest dinosaurs!

Heterodontosaurus  
had 3 types of  
teeth!

Some dinos live to  
be 🐛 100 years  
old.

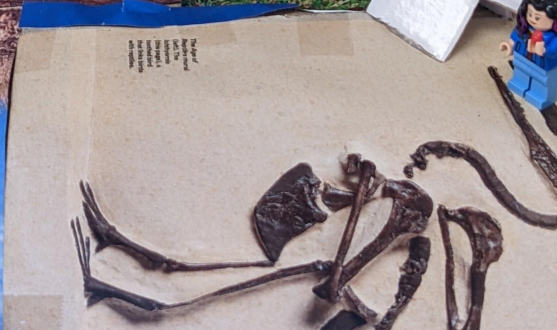

no even had  
ak like a  
t.

The oldest fossil  
was 3.5 billion  
years old.

Arrowheads were  
used by native  
americans to hunt.

Some fossils  
are millions of
